

MENTOR PROGRAM

GOAL

To ensure the future of fine craft by encouraging and enabling the next generation through the fostering of a lasting relationship between an experienced craftsperson (the Mentor) and an emerging craftsperson (the Mentee).

NCSW MENTOR REFLECTION PAPER GUIDELINES

The purpose of the reflection paper is to assist you in thinking about and reflecting on your mentor experience and the personal and professional development that grew out of it. Before writing this paper, you should meet to jointly evaluate your experience, identify new learning, compare respective perceptions and conclusions, and talk about any differences.

This paper is important as a tool for review and evaluation of the Mentor Program. The length should be a minimum of three pages and both the mentor and mentee's views are to be represented. There is no formal outline to follow but some guiding questions are:

What workshop(s) did you take?

What are some important abilities/skills/characteristics that you developed as a result of the workshop in particular and the experience in general?

What did you learn from working closely with each other?

What helped you? What didn't? What could you have done that you didn't do?

How has this experience affected your educational and/or career plans?

How will you apply the lessons learned from this experience?
