

Beaubourg

[bo-bur]

Beaubourg means literally "pretty village" which was the ironic name given to this humble but effervescent area in the heart of Paris.

Famous poets, musicians and writers like Honoré de Balzac and Victor Hugo lived there and wrote some of France's most famous works including Les Misérables & The Hunchback of Notre-Dame.

Today Beaubourg is a bustling area of Paris filled with a multitude of cafes and terraces that allow one to sit and enjoy all of the surrounding creativity including the arts with its Modern Art Museum Centre Pompidou.
