Announcing Competitive Scholarships for the 2019 Yale Cyber Leadership Forum

We are delighted to announce the availability of competitive full and partial scholarships for highly qualified cybersecurity professionals who wish to participate in the 2019 Forum but do not have the financial resources to do so. The third annual Yale Cyber Leadership Forum will take place February 28 to March 2, in New Haven, Connecticut.

Scholarships offset tuition and are made possible through generous outside sponsorship. Transportation to New Haven and accommodations are not covered.

Applications for scholarship funding will be accepted until noon (Eastern Standard Time) on February 7. Scholarship decisions will be announced the following day, on February 8.

Eligibility
Scholarships are primarily for professionals working in government, the non-profit sector, and academia for whom the already reduced tuition rate of $1,995 would be a hardship. Applicants who own or work in start-ups or very small businesses may also be considered.

Requirements
To apply, you must meet the eligibility criteria and submit a complete application online that includes a:

1. Personal statement describing your work experience, the contribution you make to your company or organization, and what you hope to gain by attending the Yale Cyber Leadership Forum
2. Brief statement of financial need
3. CV or resume, to include a list of three (3) references that have worked with you as a supervisor or colleague, and whom the Forum may contact in reference to your application

Scholarship winners who accept the offer and wish to hold their place in the Forum will be asked to make a refundable deposit of $250 by February 12. The deposit will be fully refunded upon registration at the Forum on February 28.
