www.tarterusa.com

KIT INCLUDES:

Bottom Portion (Install First)

- 19 – 47" x 6-3/4" boards with tongue
- 1 – 47" x 6-3/4" board with no tongue
- 1 – 47" x 2-3/4" board with no tongue

Top Portion

- 19 – 33-3/4" x 6-3/4" boards with tongue
- 1 – 33-3/4" x 6-3/4" board with no tongue
- 1 – 33-3/4" x 2-3/4" board with no tongue

BOTTOM PORTION INSTRUCTIONS:

BEFORE YOU START: Place stall securely against a sturdy surface with the backside facing forward.

Note: The notches in the bottom channel should be facing toward you.

Note: A rubber mallet may be used to secure boards tightly without damaging the boards.

1. Install 19 – 47" x 6-3/4" boards with tongue first.

Note: First few boards can be installed by leaning at an angle and sliding in the groove.

2. Install 1 – 47" x 6-3/4" board with no tongue second to last.

Note: You will have to use slot to install last two boards.

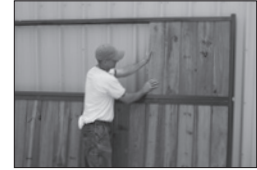

3. Install 1 – 47" x 2-3/4" board with no tongue in final slot.

TOP PORTION INSTRUCTIONS:

1. Install 19 – 33-3/4" x 6-3/4" with tongue first.

Note: First few boards can be installed by leaning at an angle and sliding in the groove.

2. Install 1 – 33-3/4" x 6-3/4" board with no tongue second to last.

Note: You will have to use notch in the channel to install last two boards.

3. Install 1 – 33-3/4" x 2-3/4" board with no tongue.

YOUR SOLID STALL SIDE IS NOW COMPLETE!

** Due to possible changes during shipping, some adjustments may be needed to last board.*
