TARTER
FARM AND RANCH EQUIPMENT

www.tarterusa.com

KIT INCLUDES*:

- 10 – 69-1/2" x 6-3/4" tongue & groove
- 2 – 69-1/2" x 6-3/4" grooved only
- 2 – 69-1/2" x 4-1/4" no tongue or groove

INSTALLATION INSTRUCTIONS:

BEFORE YOU START: Place stall securely against a sturdy surface with the backside facing forward.

Note: The notches in the side channels should be facing toward you.

Note: A rubber mallet may be used to secure boards tightly without damaging the boards.

1. Select a side to begin installation.

Note: Fully install one side before starting opposite side.

2. Install 5 – 69-1/2" x 6-3/4" with tongue facing up.

Note: First few boards can be installed by leaning at an angle and sliding in the groove.

3. Install 1 – 69-1/2" x 6-3/4" with no tongue second to last.

Note: You will have to use slot to install last few boards.

4. Install 1 – 69-1/2" x 4-1/4" board with no tongue or groove in final slot.

5. Repeat steps 2-4 on opposite side with remaining boards.

YOUR VENTED STALL SIDE IS NOW COMPLETE!

** Due to possible changes during shipping, some adjustments may be needed to last board.*
