

The **North American SUDEP Registry (NASR)** aims to better understand the risk factors associated with Sudden Unexplained Death in Epilepsy (SUDEP) by collecting and analyzing medical records, lifestyle data and bio-specimens of someone with epilepsy who died unexpectedly. It is hoped that a better understanding the risk factors of SUDEP may help to develop prevention strategies in the future.

If you are interested participating in this study, please provide your contact details below. By filling out and signing this form, you agree to be contacted by the North American SUDEP Registry to discuss participating in the study.
