

# HAITI HOUSING FUND

Matching local hands-on efforts  
to help rural Haitian families  
into affordable disaster-certified  
Maxima housing.

**Involve local communities !**  
**Use local organizations !**  
**Create local jobs !**  
**Buy local product !**

- Your donation is matched “buy one get one free”, making certified housing the obvious choice for small organizations on a limited construction budget, instead of doing temporary fixes.
- This gives your donation a “free ride” to increased efficiency. These small organizations offer personalized focus, community involvement, reintegration, and family after-care, at a low overhead.
- Using certified housing decreases the risk of families from becoming the victims of natural disasters repeatedly.
- Since the earthquake of 2010, over 10,000 Maxima Starter Homes were built in local Haitian communities.

© 2016 Maxima S.A.

**At \$2,750 each, Maxima Starter Homes are the lowest cost option to meet all the criteria of a rural Haitian house:**

- 250 sqft including front porch. Kit can be build in 2 days.
- Everything is included except the concrete foundation.
- Design approved by rural Haitian communities.
- Traditional wood construction techniques used by local builders.
- Starter home; modifying layout and adding rooms later is easy.
- US Certified earthquake and 108 mph hurricane resistant.
- Meets the UNOPS living requirements for a family of 5.

**Help us to offer 2 Maxima Starter Homes for the price of one to small organizations in communities hit by hurricane Matthew.**
