

Education Intern Positions for 2016 -2017 School Year

Gain invaluable experience on site at the Science Mill in Johnson City, Texas with cutting-edge informal science education to add to your professional resume!

Field Trip & Learning Lab Intern (Unpaid)

Support Field Trip learning experience for various age groups of students visiting the Mill. Aid in Learning Lab preparation, instruction and classroom facilitation of activities.

Responsibilities including but not limited to:

- Assisting in the logistics and operations of Learning Lab programs
- Aiding in the delivery of hands-on, fun STEM activities
- Help lead instructor in the set-up and breakdown of labs
- Facilitating on the museum floor as an exhibit explainer to field trip groups
- Supporting STEM education staff in organizing materials and testing new lab concepts
- Opportunity to be lead instructor for the labs in the future based on performance during internship

Intern Extension Opportunities:

- Possible paid position for part-time work within the Mill as positions become available
- Possible paid position for Summer Camp TAs at various locations in Central and South Texas
- Opportunity to extend internship, part-time, and/or camp experience based on work performance, reliability and schedule availability.

Requirements:

- Education major preferably with focus in Science, Math, Engineering or Technology
- Calm and friendly demeanor
- Ability to work well with others
- Organized
- Enthusiastic about working with children
- Passionate about STEM (even if you are an Education Generalist major)

Please email your application to amber.middlebrook@sciencemill.org.
