About ConTex

ConTex is a joint initiative of the University of Texas System and Mexico's CONACYT. Established in 2016, ConTex supports bilateral efforts to enhance academic and research cooperation between Texas and Mexico by funding doctoral students, postdoctoral and faculty fellows, visiting graduate research training, and bi-national collaborative research projects.

Doctoral Fellowships

ConTex-CONACYT doctoral fellowships give aspiring researchers the opportunity to make new discoveries and scientific breakthroughs while working with world-class faculty. Students from Mexico will receive financial support to attend one of the 14 University of Texas System institutions to study with top researchers, while preparing for entry into a global workforce.

Fellows receive financial support for up to 5 years of doctoral study at a University of Texas Institution. Support includes:

- Tuition and Fees
- Monthly stipend
- Academic Health Plan Insurance (for student only)

To start a doctoral program in the fall semester, we suggest you begin the application process one year in advance and apply to more than one program. Interested students should:

- Apply for admission to graduate programs. Admission requirements vary by institution and department. Please visit specific institution and graduate program websites for detailed information.
- Notify ConTex that you are interested in applying for the fellowship by filling out a ConTex registration form at contex.utsystem.edu.
- Apply directly to CONACYT. Convocatorias are announced between February and March of each year.

For more information write to us at contex@utsa.edu or call 210-458-7240; contact Paloma Perry, Director of Programs (paloma.perry@utsa.edu) or Olivia Mogollon, Academic Program Coordinator (olivia.mogollon@utsa.edu).
University of Texas System

The University of Texas System is one of the largest systems of higher education in the United States with 14 institutions and an enrollment of more than 235,000 students. With about 21,000 faculty, and more than 85,000 health care professionals, researchers, student advisors and support staff, the UT System confers more than one-third of all undergraduate degrees in Texas and almost two-thirds of all health professional degrees each year.

Eligible Ph.D. programs are available at all of the University of Texas System institutions.

**Academic Institutions**

- The University of Texas at Arlington
- The University of Texas at Austin
- The University of Texas at Dallas
- The University of Texas at El Paso
- The University of Texas of the Permian Basin
- The University of Texas at Rio Grande Valley
- The University of Texas at San Antonio
- The University of Texas at Tyler

**Medical Institutions**

- The University of Texas Health Science Center at Houston
- The University of Texas Health Science Center at San Antonio
- The University of Texas Health Science Center at Tyler
- The University of Texas Medical Branch at Galveston
- The University of Texas MD Anderson Cancer Center
- The University of Texas Southwestern Medical Center
