Visit us! Field Trips & Farm Tours

Visiting our regenerative, organic farm is a great way to learn about how food can be grown in a reciprocal relationship with nature, dive into our local food system, and get up close with the ecosystems that sustain us. Visit us as a part of a school / homeschool field trip, or through the farm tour that’s right for you.

Contact Julie, our Farm Education Coordinator, at julie@kearsargefoodhub.org with questions or to schedule a visit.

A note on our rates. We want everyone to be able to join us for a fun and inspirational experience at the farm regardless of their ability to pay. If the rates described below are prohibitive, contact Julie about our sliding scale.

Field Trips  2 hours

Our field trips are experiential, farm- and forest-based, and emphasize connections to food and connections to nature. Our farm educators tailor each field trip to suit the grade level(s) and interests of your group. Activities vary with the seasons, but students should come ready to get their hands in the soil and pick themselves some tasty farm snacks.

★ $8 per student, or $60 for groups with 7 or fewer students

Farm Tours  1.5 hours

Two types of farm tours are available; choose the one that best fits your interests.

Farm Tour for Farmers

This tour is for aspiring, beginner, or experienced farmers that want to learn details about the techniques and methods we use at Sweet Beet Farm in order to apply those methods themselves. We will get into the nitty-gritty of selecting the right tools, why and how we do the things we do, and what resources helped us most along the way. This tour includes recommendations for foundational texts and online resources.

★ $20 per person, or $100 for groups with 5 or fewer people

Farm Tour for Community Members

This tour is for anyone curious about our small, regenerative, organic farm. While touring our heated nursery, packing shed, high tunnels, and fields, we will discuss what it means to be a market garden, why we chose that model, and how and why we grow food using regenerative methods.

★ $15 per person, or $60 for groups with 4 or fewer people
★ Group rates are available for groups of 15+ people; contact Julie for more information
