What is the Pupil Premium Grant?

The Pupil Premium Grant was introduced by the Government in April 2011 and was allocated funding to help schools and academies to raise the achievement of disadvantaged students and to close the gaps between them and their peers.

Students who are entitled to the Pupil Premium grant include:

- Those who are eligible for free school meals
- Those who have been registered for free school meals in the last 6 years

Students who are entitled to the Pupil Premium plus grant include:

- Those who are in care
- Those who have been adopted from care.

The Pupil Premium grant is additional to main school funding and it will be used to address any underlying inequalities between children, by ensuring that funding reaches the students who need it most.

If you think your child may be entitled to the Pupil Premium grant or you have any queries, please do contact Mr Nick Hamblin (Disadvantaged Students' Pastoral Support Manager) on 01209 712 220 or by email: nh@poolacademy.co.uk.

Pool Academy's Objectives

Objective 1

The Pupil Premium grant will be used to provide additional educational support to increase the rate of progress and to raise the standard of achievement for these students;

Objective 2

The funding will be used to narrow and close the gap between the achievement of these students and their peers;

Objective 3

As far as its powers allow, the school will use the additional funding to address any underlying inequalities between children eligible for the Pupil Premium grant and others;

Objective 4

We will ensure that the additional funding reaches all of our disadvantaged students and that it makes a significant impact on their education and lives.

Reporting about the Pupil Premium Grant

The Vice Principal overseeing Pupil Premium, in consultation with the governors and senior staff, will decide how the Pupil Premium grant is spent for the benefit of entitled students;

The academy will assess, through reviewing progress data and conversations with students and parents, what additional provision should be made for the individual students;

The academy will be accountable for how it has used the additional funding to support the achievement of those students covered by the Pupil Premium grant and the Vice Principal will report to the governing body and parents on how effective the intervention has been in achieving its aims;

We will publish online information about how we have used the grant and about the achievement of students entitled to it;

We will track the impact of the strategies put into place through the funding to ensure that we can show the value that has been added to the education of the entitled children;

We will monitor evaluate and review the success of the impact of the pupil premium grant and update the planned expenditure at least annually.

Impact of 15/16 Expenditure

The government has changed the way they measure the achievement of students in schools.

Based on students' KS2 levels, grades are estimated for them based on what grades students nationally would achieve.

Students' actual GCSE exam results are then compared to these estimates.

A score of -1 would mean that the students' grades are (on average) a grade lower than students nationally would achieve.

A score of 0 means that students are achieving the same grades (on average) as students nationally would.
