End the Grand Jury Witchhunt! Defend Our Re-Subponeaed Friends!

Sarah Martin, co-chair of Women Against Military Madness has been a tireless advocate for peace and justice. Tracy Molm and Anh Pham have worked with WAMM in the Iraq Peace Action Coalition and other coalitions to organize non-violent anti-war educational events and protests, including at the Republican National Convention, speaking out against the atrocities of war and injustice. They have done nothing wrong and are being made examples of as critics of foreign policy.

"The law will never make men free; it is men who have got to make the law free." Henry David Thoreau

Former FBI staff member Coleen Rowley in "Update About the Government’s New War on Peace," (Huffington Post, September 28, 2010): “You might recall that when former Attorney General Ashcroft wanted to re-institute provisions of the Patriot Act, he used the rationale that no one had thus far made any complaints about the Patriot Act infringing on their civil liberties.” The Office of Inspector General (OIG) is an independent entity within the Department of Justice that reports to both the Attorney General and Congress on issues that affect the Department’s personnel or operations including complaints of misconduct of the Federal Bureau of Investigation and civil liberties violations relating to the PATRIOT Act. Contact The Office of Inspector General (OIG) at oig.hotline@usdoj.gov or call: 800-869-4499 or write: Office of the Inspector General, U.S. Department of Justice, Investigations Division, 950 Pennsylvania Avenue, N.W. Room 4706, Washington, DC 20530. Coleen also stated, "Most importantly, if we are to avoid repeating the history of the '60s-'70s and the indiscriminate spying upon first amendment-protected groups that took place during those years, people should call their own elected congresspersons and senators and ask them to quickly convene new Church Committee-type hearings.”.
