SEGMENT 3 STREETSCAPE

BLADENSBURG ROAD NE INTERSECTION

NOTE: All recommended upgrades to intersection as part of Vision Zero report will be implemented by end of 2017. Ask staff for more information on Vision Zero report recommended upgrades.

INTERSECTION DESIGN GOALS

- Improve pedestrian and bicycle connectivity
- Improve overall safety and user experience with larger refuge islands and refurbished curb ramps
- Increase tree canopy and decrease impervious surface
- Close and/or narrow width of wide driveway aprons
