## EXCAVATION FOREMAN

Due to growth, S.C. Swiderski, LLC., a privately held construction, real estate and property management company is recruiting for a full-time Excavation Foreman in our newly developed Excavation Division. At S.C. Swiderski, LLC., we have a strong track record of identifying unique investment opportunities and initiating disciplined, value-added strategies and are positioned for growth. Our employees are the power behind our success; every team member contributes toward building a better company, every day.

### **ESSENTIAL FUNCTIONS:**

The foreman must be able to operate equipment safely and efficiently, including but not limited to a dozer, excavator, loader, skid steer and mini-excavator along with having a solid understanding of earthmoving, grading and site plans with GPS/Trimble experience a plus. Laborer work may include shooting grade, shoveling for uncovering ground utilities, etc. Candidates for this position must provide proof of operating stated equipment along with crew supervision in previous employment. Other required skills include: understanding codes, knowledge of and adherence to OSHA/MSHA guidelines, knows how and when to obtain permits, knows how to arrange utility locates, basic construction knowledge, can operate a sewer camera, is able to lift a minimum of 75 pounds, possess reliability, good time management and communication skills and has proven his or her ability to work under pressure in a supervisory capacity. Candidate must pass all DOT regulations and preferably hold a valid CDL license along with having the ability for overnight travel.

This is a year round, full-time, benefit eligible position.
