# FORGOTTEN WARRIORS, LLC.

## A DECADE OF DOMINANCE

---

**TO:** Forgotten Warriors Film Supporters  
**FROM:** Forgotten Warriors Film Committee  
**SUBJECT:** Underwriting Funding  
**DATE:** September 12, 2017

---

Forgotten Warriors, LLC is entering a second phase of fundraising for the creation of the movie about a decade of football dominance at San Pasqual High School from 1971 – 1980.

A documentary movie is in production, a script being written, and a executive producer sought for the feature length movie about the championship years at San Pasqual—a rather stirring story.

One of our means of fundraising to continue production of the movie is conducting golf tournaments and our fourth is being held in Yuma on February 3, 2018. At that time the documentary, to date, will be presented at a banquet to be held at the Yuma City and Convention Centers with all golfers, players and families invited.

Due to many of the past players circumstances financially and our continued desire to make this project inclusive of everyone, Forgotten Warriors, LLC is hoping to underwrite the banquet and golf tournament with help from businesses like yourself. To date, many businesses, family, friends and players have stepped up with their time and monies, and now we need to attain a larger portion of funding.

Underwriting from \$2,500 - \$10,000 per business would be greatly appreciated and would allow many to enjoy the presentation of the documentary. For your generosity, you would receive a team sponsorship for the tournament, banquet entry and, depending on the amount donated, a copy of the completed documentary, seating at the movie premier and acknowledgement in the movie credits of your family or business name.

Hopefully your generosity and interest in seeing this hometown story completed will allow you to step up and lend your support.

Thank you in advance for your consideration and anything you may be able to do in support of this project.

Respectfully,

Forgotten Warriors Film Committee
