A Maasai Adventure & African Safari

Isaya Oleporuo
Maasai Warrior Guide

thewarriorsorganization@gmail.com

Explore

Observe and experience the unique lifestyle of the Maasai. Explore this amazing culture with a Maasai warrior in his village and with his family. Experience the reality of their way of life and bring home an experience you can talk about for years.

Our safari adventure is very unique yet traditional. Our safari will take you to the four famous national parks in northern Tanzania and will be led by a genuine Maasai guide who speaks fluent English. You will have the experience of your life learning about the Maasai culture and the flora and fauna of our national parks from a native Maasai perspective.

We are the Warriors Organization, a non-profit that works with people of the indigenous tribes of Tanzania. We work and live in each tribe’s environment. We work directly with the people of each community, we learn with them and help them identify and solve problems so that we can have a positive and sustaining impact on their lives and cultures.

20% of all our safari revenue goes to support the education of Maasai girls. Our objective is to stop their forced marriages at age 13 and give them the opportunity to choose their own pathway through life.
