NOTICE TO NEW PARTICIPANTS

You have become a participant in a 403(b) plan established and administered by Servant Solutions ("Plan").

The National Securities Markets Improvement Act (the "Act") signed into law on October 11, 1996, exempts church plans from federal and state securities laws, except for anti-fraud provisions. In order to qualify for the exemption, church plans must satisfy eligibility requirements under Code Sec. 414(e) and the assets of church plans must be used exclusively for the benefit of plan participants and beneficiaries. Church plans continue to be subject to the Internal Revenue Code and its regulations regarding eligibility, governance, and operations of such plans.

The Act requires the Plan to notify participants that the Plan is not subject to and the participants are not covered by state and federal securities laws. The following notice is provided in accordance with the Act:

The Plan or any company or account maintained to manage or hold assets of the Plan and interests in such Plan, companies, or accounts (including any funds maintained by Servant Solutions) is not subject to registration, regulation, or reporting under the Investment Company Act of 1940, the Securities Act of 1933, the Securities Exchange Act of 1934, Title 15 of the United States Code, or State securities laws. Therefore, the Plan participants and beneficiaries will not be afforded the protections of those provisions.

The Servant Solutions custom age-based funds are each composed of mutual funds. Age-based funds for younger participants have greater stock market risk, while age-based funds for older participants have less exposure to stocks and a higher allocation to bonds and cash. Over time, each age-based fund reduces risk by following a glidepath, allocating more to bonds and cash and less to stocks. Age-based funds are automatically rebalanced at least quarterly. Rebalancing may occur more frequently if performance of individual funds or asset classes results in significant deviation from the age-based fund's target allocations.
