

JUNE 2017

First of all: a BIG thank you!

Firstly, we would like to thank everyone who came to our launch on the 4th of April in London. We thoroughly enjoyed the day and particularly speaking with you. We appreciated the varied and valuable input and feedback, both during the event and since.

If anyone who attended would like a copy of the speeches from the day please do [get in touch](#).

You might be wondering, what has happened since?

We are still in the early stages of development as an organisation and have been meeting regularly exploring ways forward so we can best serve people who are living with and beyond cancer with coaching. We are all continuing to work in our many different ways with individuals facing cancer and with their loved ones, as well as with organisations looking to optimise their abilities to care for employees going through treatment and in their return to work. Work in progress... Next newsletter is to be expected in October.

About CCC

The **Cancer Coaching Community (CCC)** is a newly founded community of professional coaches in the UK who coach people affected by cancer, to support them to move forward from their cancer experience. What's unique about this group is that ALL coaches have direct or indirect cancer experience and have a wide knowledge and understanding about the impact of cancer. Please get in touch if you are looking for a coach or our specific expertise and experience.

What's on?
