

Free Churches Group Organisational Chart for Healthcare Chaplaincy Accreditation and Registration

The process for the accreditation of healthcare chaplains places the decision to recommend that someone is in 'good standing' with the chaplain's denomination. Each denomination has its own process. Employing Trusts will be able to check this through the Secretary for Healthcare Chaplaincy. A register of accredited healthcare chaplains will be maintained and accreditation will be confirmed annually. Disciplinary matters will be a responsibility held between the employing Trust and the Denomination, but the Secretary for Healthcare Chaplaincy will support all parties as appropriate.
