LIME WASH APPLICATION GUIDE
Domingue Architectural Finishes, a range of plasters, lime wash and mineral paint, is the finest collection of architectural finishes ever available in the U.S. The timeless materials elegantly address conditions both interior and exterior and provide, via the hand of the applicator, an endless variety of expression. The materials are all natural and harmless to our environment. Domingue Architectural Finishes are unrivaled in their beauty, coloration, purity and durability.
STEP by STEP
1. If needed, prime surface with bonding primer
2. Mix paint thoroughly

3. Apply in horizontal or vertical strokes
4. If preferred, apply in random strokes
5. First coat as it’s drying
6. Dilute second coat with water

7. Apply second coat in same manner as first
8. Finished wall, completely dry
