emowerHER was founded in 2013 with a very specific mission—to empower, support and connect girls of all ages who have experienced the early loss of their mothers.

We are the only organizations in the country specifically working to address the struggles of girls whose mothers have died and currently serve 130+ girls throughout the state of Massachusetts by providing an integrated series of programming featuring year-round group events and retreats. **Events for the Girls** such as our signature Mother’s Day Retreat, Beach Bash, and cooking classes are designed to build a supportive peer community and remind girls they are not alone in their grief. Events take place in tandem with a thoughtful **One-on-One Mentor Match Program** with caring and responsible community volunteers. Mentorship gives them a strong female role model as they traverse the difficult terrain of grief and as they mature into young adults. All programs and activities are provided at no charge to the family.

**CHANGING HER LIFE will CHANGE YOURS.**
