

Loose Change

74" x 88"

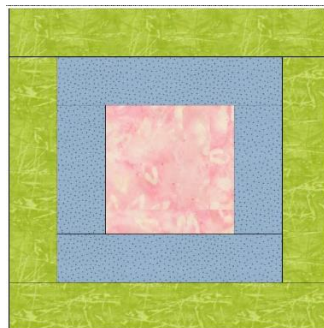

To make the quilt shown:

This quilt is made up of 2 different blocks which finish in the quilt at 10". They look like this:

and

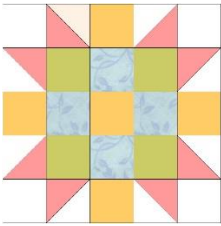

You need: (I used a 10 piece half yard pack by Rachael called *Five and Dime*) plus white

- 5 yards of various pastels type fabrics that please you – I used 10 pieces, half yard each
- 5¾ yards white
- About ½-5/8 yard of fabric for the binding – I was able to get this from my bundle pack – I did not use additional yardage for the binding!

Cut:

For block 1:

I did cut each block individually as I wanted them all different: (make 15 individual sets/blocks): I used 4 different fabrics for each block PLUS white:

From white:

- 4 – 2 ½" x 2 ½" squares
- 4 – 3" x 3" squares

Color 1: (in this diagram – green)

- 4 – 2 ½" x 2 ½" squares

Color 2: (in this diagram – blue)

- 4 – 2 ½" x 2 ½" squares

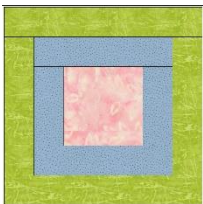

Color 3: (in this diagram –yellow)

- 4 – 2 ½" x 2 ½" squares

Color 4: (in this diagram – pink)

- 4 – 3" squares

For block 2: - Make 15 different blocks: cut the pieces listed below:

Choose three colors - cut these pieces:

Color 1 – 4.5" square for the center

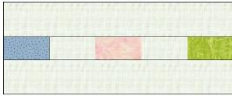

Color 2 – (in this diagram – blue)

- 2 – 2" x 4.5"
- 2 – 2" x 7.5"

Color 3 – (in this diagram – green)

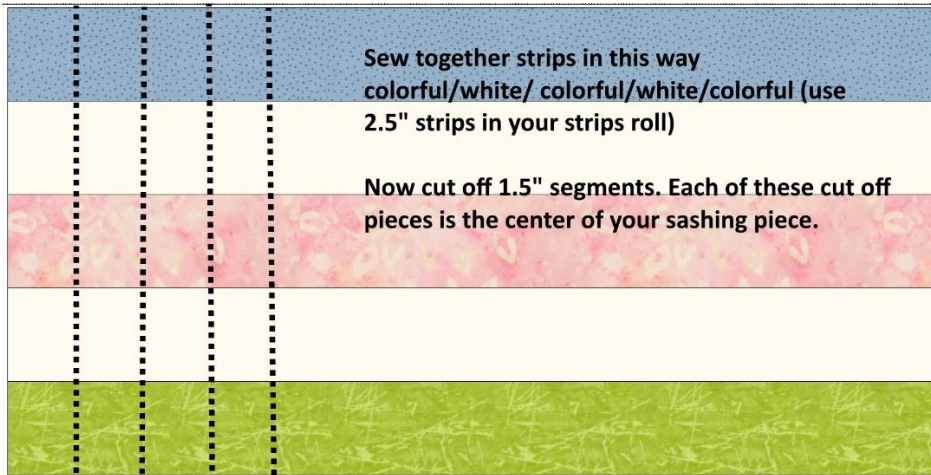

- 2 – 2" x 7.5"
- 2 – 2" x 10.5"

For sashings:

From white:

- 142 – 2" x 10.5" strips
- Then either strip piece using 2.5" strips of colorful, white, colorful, white, colorful and subcutting 1.5" strips (this is what I did). This is how I strip pieced and cut it:

If you do not want to strip piece like I did, cut these pieces - for each sashing piece:

- 3 colorful pieces 1.5" x 2.5"
- 2 – white pieces 1.5" x 2.5" pieces.

For the whole quilt this size you will need

- 213 colorful pieces – 1.5" x 2.5"
- 142 white – 1.5" x 2.5"

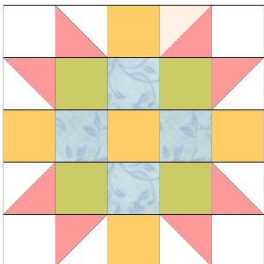

For cornerstones:

From white -

- 42 – 4.5" squares

Construct blocks:

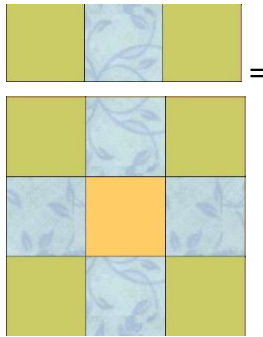

For block 1:

1. Make your middle 9 patches:

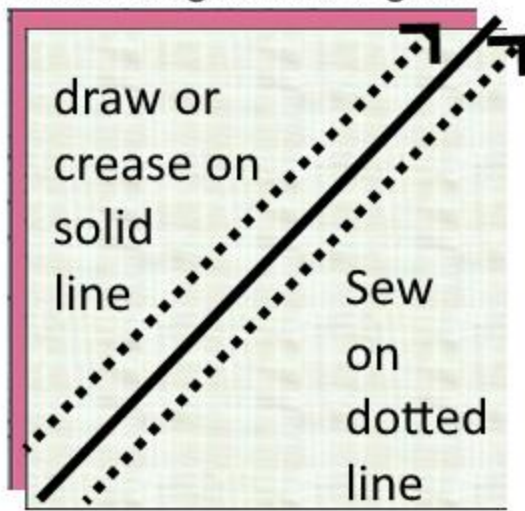

- Using your 4 greens, 4 blues and yellow 2.5" squares, make your basic 9 patch like this:

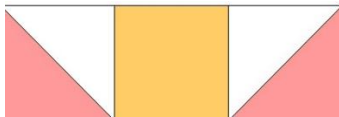

2. Make 8 HST blocks like this – using your 4 - 3” squares of white and pink, draw a line diagonally across the middle with a pencil on the back side of one of them OR use the iron and iron a diagonal line on one of them. Then place the two pieces together, right sides together and sew $\frac{1}{4}$ ” on each side of the drawn line. Cut on drawn line. Open up. Iron flat. Trim to 2.5” square. Here is a summary drawing:

Place fabrics right sides together

Cut apart on solid line after sewing

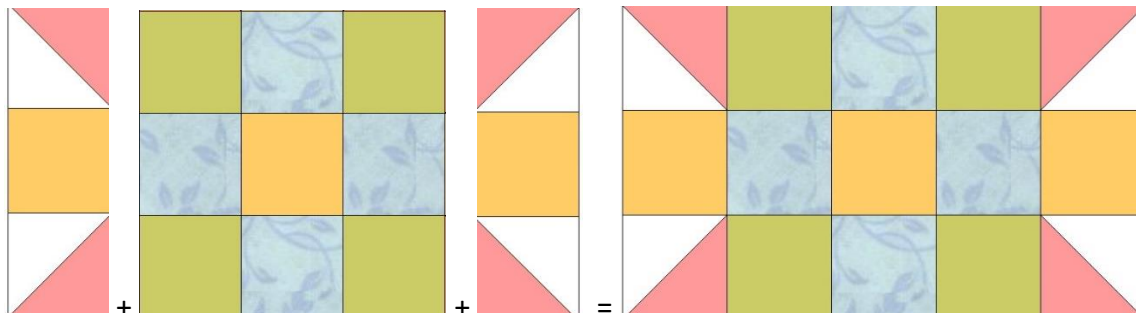

3. Use those 2.5” HST blocks and a 2.5” yellow and make 4 sections that look like this:

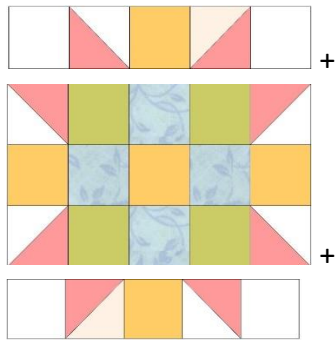

4. Add a plain white 2.5” square to each end of two of them so that the segments look like this:

5. Now add the shorter segment to each side of the 9 patch like this:

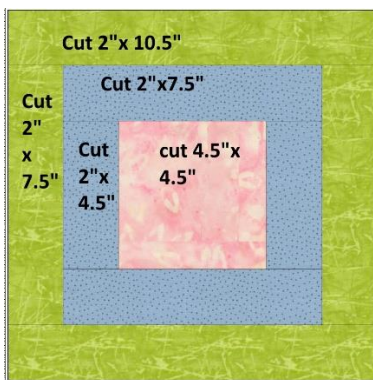

6. Now add the last two pieced sections to the top and bottom of this section:

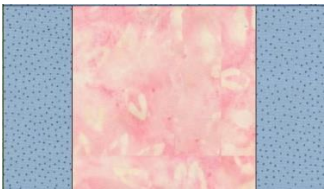

Your block is finished! Make 15 – I tried to make mine all different!

The blocks will be $10\frac{1}{2}'' \times 10\frac{1}{2}''$ until you put them all together – then they will be $10'' \times 10''$.

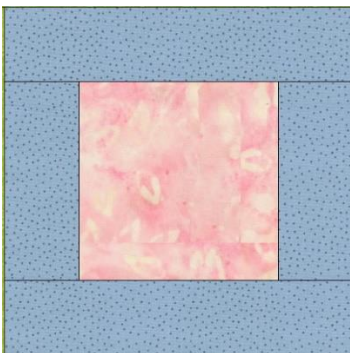

For block 2:

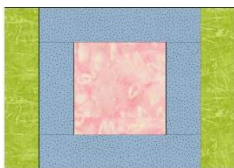

First sew the $2'' \times 4.5''$ strips to the sides of the center $4.5''$ cut square:

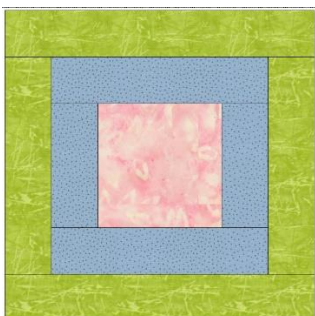

Then add the cut $2'' \times 7.5''$ strips to the top and bottom like this:

Now add the $2' \times 7.5''$ cut strips to the sides like this:

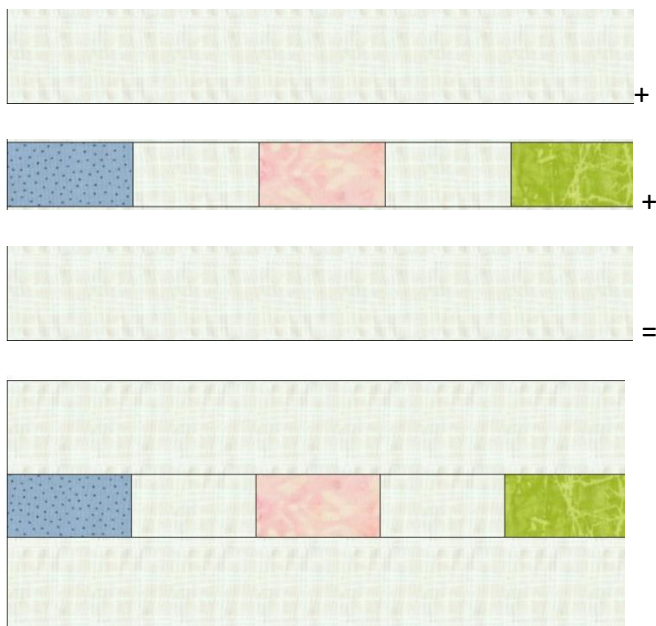

Then, finally, add the cut 2"x10.5" strips to the top and bottom like this:

Make 15 blocks. They should all measure 10.5"x10.5" at this point. I *tried* to make mine all different.

How to make sashing strips:

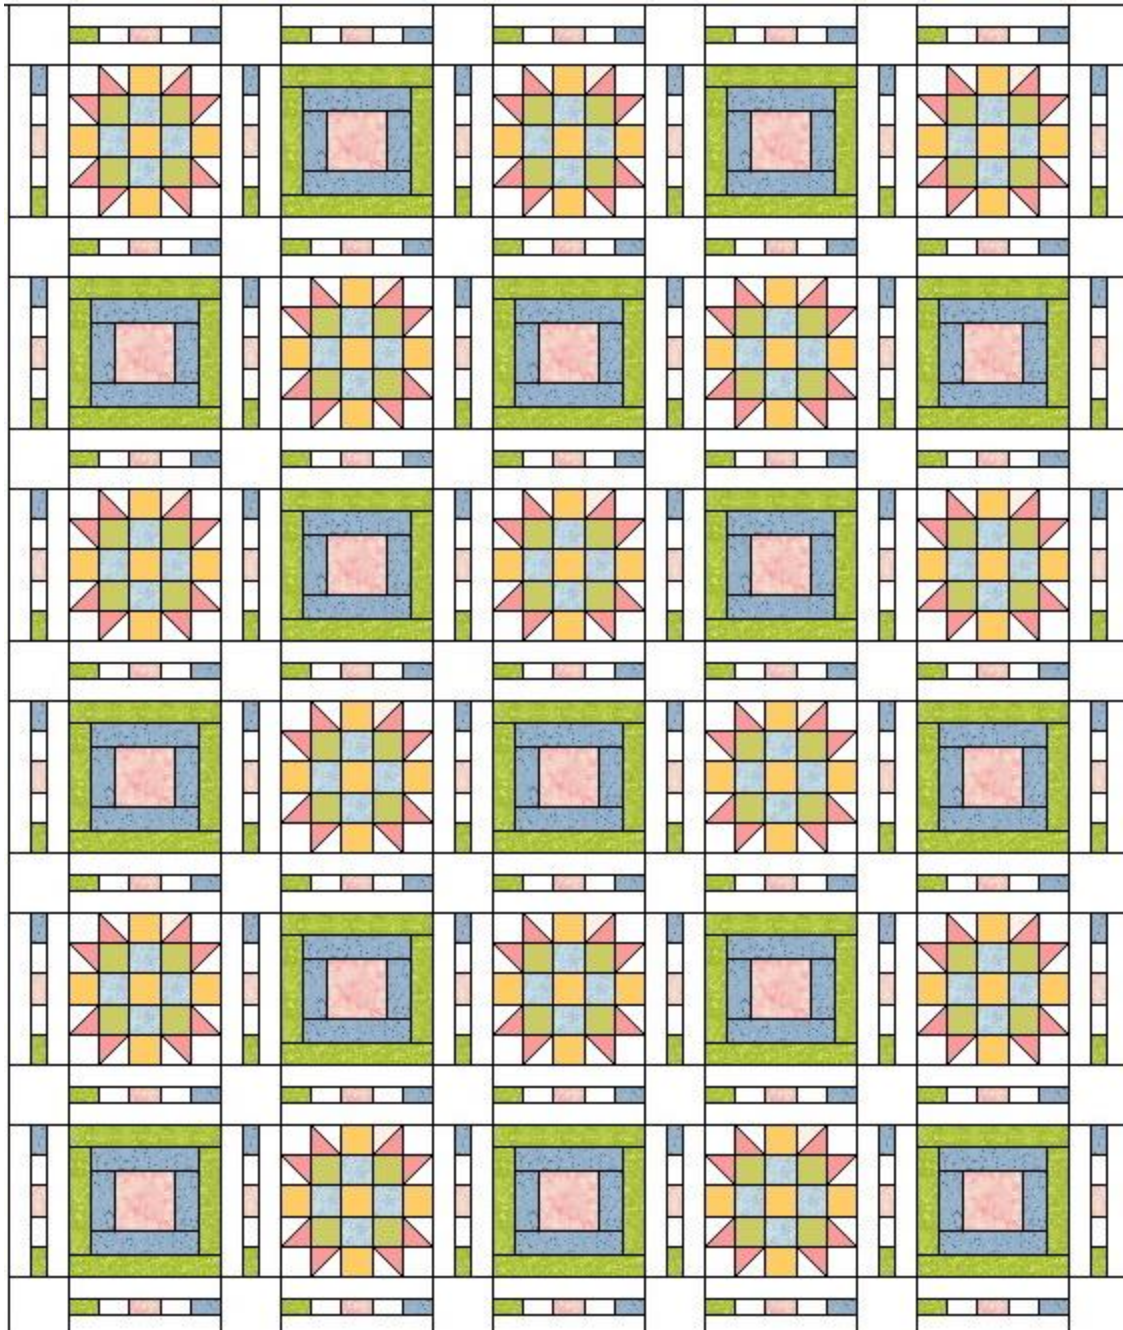

Using your already strip pieced segments, put together by sewing your white 2"x10.5" strips to the center strip pieced segment like this and finally a second white 2"x 10.5" piece like this:

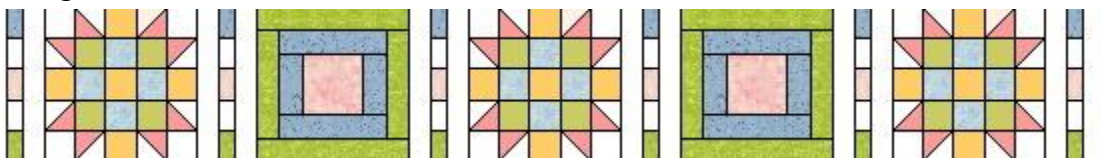

It measures 4.5"x10.5" at this point. Make 71.

How to put together this quilt:

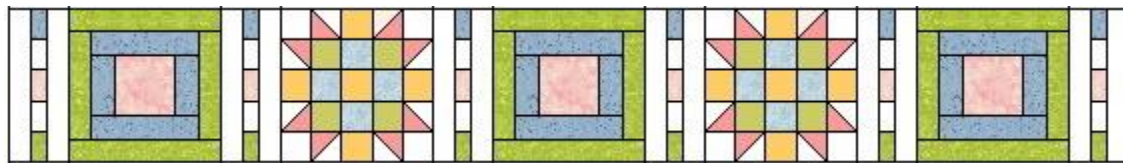

1. **Make blocks as described above.**
2. **Using this diagram,** place your blocks as shown, sewing a sashing piece between each block:

3. Sew your top together in rows. Place a sashing strip between each block as shown: Make 3 as shown in diagram above

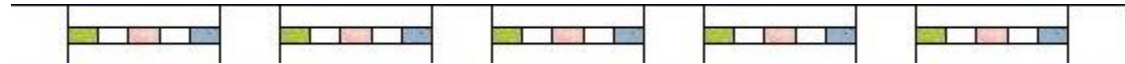

Make 3 like this:

Alternating rows make rows using the sashing/cornerstones like this: Use the white 4.5" squares you cut earlier under "Cut".

Make 7

4. There are no borders!
5. **Press well.**
6. **Sandwich**, using whatever type of batting and backing you prefer
7. **Quilt** as desired. I used curls and swirls
8. **Bind**, using whatever method you wish.

Congratulations! Your quilt is finished!

Enjoy!
