

Access Monterey Peninsula Public Access Underwriting Agreement

Access Monterey Peninsula supports the right of Public Access programmers to present their material and to seek appropriate underwriting in support of their programs. AMP's Policies and Procedures for Community Users requires that, when underwriting credits appear on Public Access channels, there be documentation clarifying the fact that such underwriting support does not support AMP, but rather supports the efforts of an independent producer or programmer making use of time on AMP channels.

This form must be completed and presented along with a Community Programming Agreement, if a program contains underwriting credits. Each underwriter must sign an individual form for each program on which their credit appears.

Name of Producer or Programmer: _____

Name of Program: _____

"I understand that any financial or other support that I have given to the above Producer/Programmer is for support of the program listed. No support is intended for or will be received by Access Monterey Peninsula (AMP). I understand further that the Producer/Programmer is not an agent or representative of Access Monterey Peninsula and that the program I am supporting is strictly the Producer's responsibility and expression. I understand that I may receive an underwriting credit, but will not receive commercial advertising including the promotion of products or services."

Name of Underwriter _____

Signature of Underwriter _____

Date of signature _____
