Since 1999, we have helped over 280,000 families in San Francisco.

We have a PPS-SF Parent Ambassador in 50% of SFUSD schools and 18 unique training programs to empower parents to be leaders in their schools. We train over 1,000 parent leaders every year.

Every year we bring over 5,000 parent voices to the school district to inform how decisions are made.

Partnering with over 30 CBos and community organizations, including SFUSD.

Our direct services reach over 5,700 families in English, Spanish, and Chinese and our parent engagement program helps 1,900 newcomer families speaking Spanish and Chinese every year.

We answer over 1,000 calls and emails every year.

We are the only organization to monitor the 33 Board of Education meetings via our #BoardWatch program.

STRONG SCHOOLS. STRONG CITY.

We believe that public education is a fundamental right for all children; that strong San Francisco public schools create a strong city for all of us. Together with engaged, empowered parents we aim to ensure the success of our children and our schools.
