In Minnesota, an average of 700 children are poisoned by lead each year.

It costs $2,500/unit to make a unit LEAD SAFE from lead paint hazards.

A child disabled by lead poisoning may utilize $100,000 per year for the rest of their life in State, Federal, and Medicaid benefits.

This bill allocates $1 million/year to ensure more lead-safe homes in urban and rural areas.

Lead exposure is dangerous for young children and can cause permanent brain damage.

Will you support the Lead Safe Homes bill?

Faith in Action

The great orator, Frederick Douglass, told us this – “Power concedes nothing without a demand.”

We must demand all our systems and organizations do what is needed to guarantee everyone, without exception, a safe, decent, accessible, and affordable home.
