OVERVIEW

4840 Mission Street is an underutilized land parcel that is planned to be developed into 175 units of housing, all of which will be affordable. The affordable units will all be affordable to households earnings less than 60% of AMI, a portion of which will be set aside for formerly homeless households (approximately 15% AMI). Included in the proposed development is a ground-floor level Safeway grocery store and a second floor community-serving health clinic proposed to be operated by Mission Neighborhood Health Center.

ABOUT BRIDGE

BRIDGE Housing is an award-winning, nonprofit developer of affordable housing. BRIDGE’s vision is to strengthen communities and create opportunities, starting—but not ending—with housing. Across California and in the Pacific Northwest, BRIDGE seeks to develop properties that reflect the character of the community and also display the same quality of design and construction as market-rate housing. Since its founding in San Francisco in 1983, BRIDGE has created thousands of units of housing across the Bay Area, providing residents with quality homes and opportunities to thrive, transforming communities, and creating vibrant neighborhoods.
