“We’ve seen the problems some people go through, like not finding housing, or it’s too expensive. I felt very bad, seeing all my friends and family that had to leave the city from where they’ve lived happily for many years. They had to move because they couldn’t find anywhere else to live and because rent was too expensive.”

-Rudy and Karen Sortos, Small Sites Program Residents

---

*Based on research by the Urban Displacement Project at UC Berkeley

**Includes preservation, new construction through core loan portfolio, ADUs, and new construction through Homes for the Homeless Fund
