Life at Caterpillar: Exploring Diverse Career Opportunities

February 2, 2021 12:00 PM CST

Caterpillar is hosting a virtual event featuring a panel of professionals at Caterpillar Inc: Tabitha Ragon, Valerie Ross, and Grant Klobuchar. Each will share how their background & opportunities at Caterpillar shaped their current careers and successes.

Event attendees will have the chance to engage in smaller group discussions with our panelists after the main discussion to answer questions and to provide information about career opportunities at Caterpillar Inc.

Space is limited, please reserve your spot by clicking or scanning the QR Code.

Meet the Panelists:

Tabitha Ragon
Title: Senior Associate Design Engineer
Responsibilities: Cost reduction, lifecycle and aftermarket, and NPI design for 9-18L engine aftertreatment

Valerie Ross
Title: Senior Design Engineer
Responsibilities: Calibrate and help facilitate the implementation of clutch thermal monitoring software on Cat transmissions

Grant Klobuchar
Title: Design Engineer
Responsibilities: System integration for our 9-18L Diesel Engines
