Activities start promptly at 9:05. Your child's barn will either be going to the pool, the playground, heading outdoors to explore or play cooperative games or will be beginning dramatic play and art time. Each barn rotates through similar activities during the day and no group occupies the same space as another at the same time. Each Barn plans their art and play activities around weekly themes. Little Barn children enjoy their lunch inside their air conditioned classroom. Gray Barn children dine on shaded picnic tables at the Wishing Wall Terrace. Big Barn children also spend their lunch time outside under the shade of our evergreen trees near the head of the exploring trails.

A short rest time follows all lunches before the children return to the day's activities. Many of the afternoon activities mimic morning routines with some slight variation. This allows those children only attending in the afternoon to experience many of the same activities as full day or morning only children while changing the routine just enough so the all-day children maintain interest.

**Swimming:** Swimming instruction is guided by the Red Cross *Learn to Swim* program and is directed by a Red Cross certified Water Safety Instructor and lifeguard. Each group enjoys swim instruction in our 2 ½ to 5 ½ feet deep, 20' by 40', 80 degree heated pool in the morning and again in the afternoon for those who stay all day.
