ENSP INTERNATIONAL CONFERENCE
ON TOBACCO CONTROL 2017

**Bridging science & policy
for better tobacco control
strategies**

ATHENS 24, 25, 26 MAY 2017

*Under the auspices
of H.E. the President of
the Hellenic Republic
Mr Prokopios Pavlopoulos*

Co-funded by
the Health Programme
of the European Union

Welcome notes

ENSP Board

The 2nd International Conference of the European Network for Smoking and Tobacco Prevention will be hosted in Athens. The European Network for Smoking and Tobacco Prevention (ENSP) has been active in tobacco control since 1997 and for the last 20 years has been playing an important role in setting and influencing policies at a European and international level. Spearheading ENSP activities and projects are national representatives, organisations, academics, doctors, lawyers, health care professionals, experts and activists who always worked together to fulfil the objectives and mission of ENSP.

ENSP is the only truly pan-European network active in tobacco control being the key grassroots organisation in implementing the World Health Organization Framework Convention on Tobacco Control (WHO-FCTC) at a European level. This was acknowledged by the WHO-FCTC – Conference of Parties during the session in Uruguay (November 2010) when ENSP received FCTC observer status.

It is almost impossible to talk about FCTC in Europe without mentioning the involvement of at least one ENSP member. This united and collective effort is the essence, the heart and soul of the “Network” concept: each link makes the chain stronger; each node adds value to the structure. This added value is not only found in the strength of the partnership but also on a scientific level in everything ENSP does: its core activities, its EU projects but also its new scientific journal, “Tobacco Prevention @ Cessation”.

Tobacco consumption remains the single largest avoidable cause of premature death in Europe, responsible for 700,000 deaths every year, and is the most significant cause of health inequalities. It is an interesting time for our work in tobacco control, as the world recognises that the most effective policies are those based on scientific studies and solid evidence.

During the conference, as you discover and meet special guests and speakers from the International and European academic Institutions, national authorities and well known non-governmental organisations involved in tobacco control at the regional, national and international level, we hope you have the chance to share your experiences and insights pertaining to various facets of tobacco control.

On behalf of ENSP members and Secretariat, I am honoured to invite you to our Tobacco Control Conference in Athens, and would like to thank you for your work and your dedication to tobacco control.

Francisco Rodriguez Lozano
ENSP President- Chair of the ENSP Organizing Committee

ENSP Scientific Committee

It is with pleasure to welcome you to Athens, the city where philosophy, democracy, theatre and the principles of European civilization originated.

The 2nd annual conference of the European Network for Smoking and Tobacco Prevention entitled, “Bridging science and policy for better tobacco control strategies” will take place on May 24-26, 2017 in the heart of Athens on the occasion of the WHO’s World No Tobacco Day.

The main objective of the conference is to advance the role of science in various aspects of tobacco control and to improve the scientific content of strategies on smoking cessation, prevention and regulation of tobacco products in the European community. Distinguished scientists specializing in tobacco control from all over the world will share their expertise and scientific research regarding the global tobacco epidemic aiming to achieve effective implementation of the WHO Framework Convention on Tobacco Control (FCTC) and EU Tobacco Products Directive (TPD).

The goal remains definite... “Tobacco-Free Europe”!

Prof. Panagiotis Behrakis
Chair of the ENSP Scientific Committee

Committees

ORGANISING COMMITTEE

Francisco Lozano – Chair (Spain)

Pierre Bizel (Belgium)
Norma Cronin (Ireland)
Andrea Glahn (Belgium)
Niels Them Kjær (Denmark)
Stephen Lequet (France)
