ENSP INTERNATIONAL CONFERECE ON TOBACCO CONTROL 2017

ATHENS
24, 25, 26
MAY 2017

Bridging science and policy for better tobacco control strategies

Co-sponsored by the World Health Organization

World Health Organization
REGIONAL OFFICE FOR Europe
ENSP INTERNATIONAL CONFERENCE ON TOBACCO CONTROL 2017

ATHENS
24, 25, 26 MAY 2017

UNDER THE AUSPICES OF
H.E. THE PRESIDENT OF THE HELLENIC REPUBLIC
MR. PROKOPIOS PAVLOPOULOS

Co-funded by the Health Programme & Horizon 2020 Framework Programme of the European Union

The content of this brochure represents the views of the authors only and is their sole responsibility; it cannot be considered to reflect the views of the European Commission and/or the Consumers, Health, Agriculture and Food Executive Agency or any other body of the European Union.

The European Commission and the Agency do not accept any responsibility for use that may be made of the information it contains.
**ENSP International Conference on Tobacco Control 2017**

The European Network for Smoking and Tobacco Prevention (ENSP) has been active in tobacco control since 1997 and for the last 20 years has been playing an important role in setting and influencing policies at a European and international level. Spearheading ENSP activities and projects are national representatives, organisations, academics, doctors, lawyers, health care professionals, experts and activists who always worked together to fulfill the objectives and mission of ENSP.

ENSP is the only truly pan-European network active in tobacco control being the key grassroots organisation in implementing the World Health Organization Framework Convention on Tobacco Control (WHO-FCTC) at a European level. This was acknowledged by the WHO-FCTC – Conference of Parties during the session in Uruguay (November 2010) when ENSP received FCTC observer status.

It is almost impossible to talk about FCTC in Europe without mentioning the involvement of at least one ENSP member. This united and collective effort is the essence, the heart and soul of the “Network” concept: each link makes the chain stronger; each node adds value to the structure. This added value is not only found in the strength of the partnership but also on a scientific level in everything ENSP does: its core activities, its EU projects but also its new scientific journal, “Tobacco Prevention & Cessation”.

Tobacco consumption remains the single largest avoidable cause of premature death in Europe, responsible for 700,000 deaths every year, and is the most significant cause of health inequalities. It is an interesting time for our work in tobacco control, as the world recognises that the most effective policies are those based on scientific studies and solid evidence.

During this conference, as you discover and meet special guests and speakers from the International and European academic Institutions, national authorities and well known non-governmental organisations involved in tobacco control at the regional, national and international level, we hope you have the chance to share your experiences and insights pertaining to various facets of tobacco control.

On behalf of ENSP members and Secretariat, we are honored to welcome you to our Second International Conference on Tobacco Control in Athens, and would like to thank you for your work and your dedication to tobacco control.

---

**Local Organising Committee**

It is with great honor to welcome you to the 2nd ENSP International Conference on Tobacco Control. In addition to the exciting scientific programme, we have organized energizing coffee breaks to keep everyone refueled and two lunch breaks to facilitate networking activities that would stimulate further research activities and potential collaborations.

Keeping to the tradition of providing warm hospitality, we also have two exclusive social events, one on Wednesday evening at the Zappeio Megaro (a magnificent building within walking distance from the venue) and on the Thursday evening a VIP entrance to the Odeon of Herodes Atticus (the “Herodeon” ancient theatre built between 160 and 174 BC.) – for a private viewing of the Greek National Opera’s “Madam Butterfly” – one week before its official start date.

The conference venue is within the Plaka area of Athens, just under the rock of the Acropolis, tremendous views of which are available from the roof garden upstairs, so take time to go to the 6th floor for a wonderful photo opportunity.

We hope that your stay in Athens will be productive, exciting and a time to remember.

---

**Dr. Francisco Rodriguez Lozano**

ENSP President - Chair of the ENSP Organizing Committee

**Prof. Panagiotis Behrakis**

Chair of the ENSP Scientific Committee

**Dr. Constantine Vardavas**

COMMITTEES

ORGANISING COMMITTEE
- Francisco Lozano - Chair (Spain)
- Pierre Bizel (Belgium)
- Norma Cronin (Ireland)
- Florin Mihaitan (Romania)
- Niels Them Kjaer (Denmark)
- Stephen Lequet (France)
- Krzysztof Przewozniak (Poland)
- Cornel Radu-Loghin (Belgium)
- Dominick Nguyen (Belgium)
- Andrea Sahn (Belgium)
- Polina Starchenko (Belgium)

SCIENTIFIC COMMITTEE
- Panagiotis Behrakis - Chair (Greece)
- Nazmi Bilir (Turkey)
- Luke Clancy (Ireland)
- Bertrand Dautzenberg (France)
- Andrey Demin (Russia)
- Jørgen Falk (Denmark)
- Francisco Javier Ayesta (Spain)
- Manfred Neuberger (Austria)

LOCAL ORGANISING COMMITTEE
- Constantine Vardavas - Chair
- Penelope Stambouli - Secretariat
- Nina Anagnostopoulou
- Venia Behraki
- Marina Demi
- Vasso Evangelopoulos
- Charis Girvalaki
- Dimitris Kagkos
- Anna Kanellopoulou
- Sissi Peleki

SCIENTIFIC ADVISORY COMMITTEE
- Kristina Mauer-Stander (Denmark) - Chair
- Evagelos Filopoulos (Greece) - Co-chair
- Joshua Abrams (USA)
- Claudia Carydis (Greece)
- Tibor Demjen (Hungary)
- Estève Fernández (Spain)
- Filippos Filipidis (UK)
- Geoff Fong (Canada)
- Stefanos Fousas (Greece)
- Silvano Gallus (Italy)
- Thomas Glynis (USA)
- Giuseppe Gorini (Italy)
- Taylor Hays (USA)
- Mirjana Huić (Croatia)
- Carlos Jimenez Ruiz (Spain)

### EUREST-PLUS: Monitoring the implementation of the Tobacco Products Directive

**Round table**
- Chairs: Constantine Vardavas & Geoffrey Fong

**World No Tobacco Day 2017 and beyond: Linking Tobacco Control to Development Goals for Maximum Impact**

**Round table**
- Chairs: Dominick Nguyen & Israel Agaku

**NGOs and advocacy**
- Chairs: Bertrand Dautzenberg & Evangelos Filopoulos

**Lectures**
- Jan Polaža: The New Slovenian Tobacco Bill - Great Success Made Possible by Multi-stakeholders’ Cooperation
- Andrey Demin: Tobacco regulations and policies in the Eurasian Economic Union
- Witolid Zatoński: From Kazimierz to Athens: three decades of tobacco control advancement in Europe
- Ramona Brad: A holistic approach to assessing the impact of a smoke-free ban in Romania
- Dmitry Yanin: Involvement of Consumer Groups in Tobacco Control: Russia and Belarus Experience

**Second hand smoke**
- Ariadna Felix: Second-hand smoke exposure in settings not regulated by the spanish smoking law
- Stephanie Teloniatis: Individual Factors Associated with Support for the Smoking Ban in Bars among Smokers and Non-smokers in Greece
- Tina Termansen: Protocol and some results: Deciding and implementing Smoke Free Work Hours in a Danish context, a qualitative study.
- Giuseppe Gorini: Attributable mortality and morbidity to second-hand smoke in Europe
- Shosh Karni: Smoking cessation in teenagers: A Different Approach to a challenging task
- George Racholis: Current and secondhand smoking in Greece. The GATS and GYTS studies.

**Abstract presentations**
- Chairs: Anna Tzortzi & Silvano Gallus

### Lunch break

**Poster Viewing Session**

**Poster Chairs:** Giuseppe Gorini, Antigona Trofor

During the poster viewing session the chairs will be present and visit and discuss the posters with the authors.
Wednesday 24th of May (ENSP Conference 2017 - Day 1)

Time | Ballroom | Room A (Aktioni) | ADOLESCENTS: TOBACCO & E-CIGARETTES | Abstract presentations | Chairs: Artemis Tsitsika & Lucia Maria Lotrean | Room B (Electra) | ERS Activities on Tobacco Control | Round table | Chairs: Mina Goga & Carlos Jimenez-Ruiz | Room C (Lerkothea) | NGOs and advocacy II | Abstract presentations | Chairs: Andrey Demin & Konstantinos Vasileiou

14.00-15.30

Tobacco cessation - Health Professionals and IT Co-communication
Round table

Krzysztof Przewoziaski Attitudes of Internet users in Poland toward the new Polish Tobacco Control Law and the EU Tobacco Products Directive - types of arguments and semantic maps portrayal

Marina Demi Outreach of the “Smokefree Greece” educational campaign in Greek Schools

Alexandra Herbeč Evaluating smartphone-based stop smoking interventions – opportunities and challenges

Paraskevi Katsaounou Smoking cessation and ERS

Nino Maglakelidze Developing a Model Tobacco Cessation Clinic.

Stacey Williams New issues and age-old challenges: a review of young people’s relationship with tobacco

Anrusyak Harutyuniyan Making treatment available and affordable

Lucia Maria Lotrean Smoking prevention among school students with hearing disabilities from Romania

Iveta Nokavova Training for Nurses in Eastern Europe

Sai Yin Ho Favourable perceptions of electronic cigarettes relative to cigarettes and the associations with intention to use electronic cigarettes in Hong Kong adolescents.

Bertrand Dautzenberg The use of e-cigarettes in adolescents: public health consequences

Israel Agaku Association between menthol cigarette smoking and current use of electronic cigarettes among us adolescents

15.30-16.45

Coffee break

15.45-17.30

TOB-G & Tobacco Dependence Treatment in Special Populations Round table

João Mauricio Castaldelli-Maia Treatment of Tobacco Dependence for Mental Health and Addiction Patients

Francisco Lozano The role of smoking in preventing tobacco induced diseases

Sofia Ravara Treatment of tobacco dependence in high-quality cancer care

Nurcan B hduneli Clinical, microbiological and biochemical parameters in active smokers, non-smokers and environmental-smokers

Vardushi Hayrmutyan Treating Tobacco Dependence in Myocardial Infarction Patients

David Scott Mechanisms underlying predisposition to chronic periodontitis in tobacco and marijuana users.

Maya Rodnay Smoking cessation for pregnant women and their spouses: training the medical staff to create a supportive environment

Arzu Beklen In vitro effect of smokeless tobacco on gingival epithelial cells

Sophia Papadakou Tob-G - Treatment of Tobacco Dependence in Pregnancy (TOB-G)

David Hoin Interaction of N-acetyltransferase genetic polymorphism and smoking on individual risk for urinary bladder and breast cancers

Antigona Trofer Treatment of Tobacco Dependence in COPD

Mahmoud Alsmari Cardiorespiratory Function in Habitual Adolescents Smokers: The Ibir-Try

Anrusyak Harutyuniyan Tobacco and Tuberculosis - Two Global Epidemics

Konstantin Krassovski Tobacco affordability, sales and excise revenues in the 28 European Union countries in 2011-2014

17.30-19.00

Tobacco use: Cellular Mechanisms and Oral Health Round table

Francisco Lozano The role of smoking in preventing tobacco induced diseases

Mary Parascandola The Economics of Tobacco and Tobacco Control: The NCI/WHOD Monograph

Anthony Lavytė Trends and variability in tobacco prices in the European Union

Filippos Filippidis Can price differences between cigarettes and roll-your-own tobacco explain the rise of roll-your-own tobacco use in Europe?

For project partners only

Tack-SHS Internal project meeting Chair: Estev Fernandez

Internal TITAN Greece and Cyprus meeting Chair: Christine Lionis

For project partners only

Tobacco Cessation Guidelines for High-risk populations Project

The TOB 0 project is a three-year (2014 – September 2017) funded under the EU’s 3rd Health Programme. The project aims to develop and implement an innovative and cost effective approach to prevent chronic diseases related to tobacco dependence by developing specialized tobacco cessation guidelines for populations of high risk. The specialized guidelines for high risk groups will be developed according to ENSP’s evidence-based and good practices in tobacco cessation. The high-risk populations are people with: Cardiovascular diseases, COPD, Type 2 diabetes, Adolescents and Pregnant women. The project will assist health professionals provide guidance and targeted preventive activities to high-risk populations that are tobacco dependent and will enhance the overall European capacity in the treatment of tobacco dependence.

European study on Quantifying Utility of Investment in Protection from Tobacco

The ambition of EQUPT is to provide policy makers and wider stakeholders with bespoke information about the economic and wider returns that investing in evidence-based tobacco control – both smoking cessation and prevention action - can generate. EQUPT will deliver a Tobacco Control Return on Investment (ROI) tool - a web based economic model - that will allow European countries to estimate the ROI of tobacco control. European policy makers can use the ROI tool to see whether their current tobacco control practice offers value for money. This tool will also allow them to work out to which they can improve on their current practice to provide better value for each Euro that they put in to their tobacco control agenda. EQUPT has embraced a framework in which enormous efforts have been made to ensure that context-specific evidence on tobacco control is transferable to other countries.

Tackling secondhand tobacco smoke and e-cigarette emissions: exposure assessment, novel interventions, impact on lung diseases and economic burden in diverse European populations.

TackSHS is a research project funded by the European Union’s Horizon 2020 Research and Innovation Programme. The project aims to improve our understanding of second-hand tobacco smoke and e-cigarette emissions and to find ways of tackling the health burden caused by exposure to them. TackSHS brings together leading European research centres, academic institutions, and non-governmental organisations to work in partnership on a comprehensive and integrated approach to generate significant step-change beyond the current state-of-the-art in understanding second-hand tobacco smoke and electronic cigarette aerosols.

European Regulatory Science on Tobacco: Policy implementation to reduce lung diseases

Smoking and other forms of tobacco consumption are considered the single most important cause of preventable morbidity and premature mortality worldwide. Efforts to reduce the devastation of tobacco-related deaths and illness in the EU consist of the Tobacco Products Directive (TPD), and the on-going implementation of the WHO Framework Convention on Tobacco Control (FCTC) EUREST-PLUS, a thirteen-participant EU-China framework project to evaluate the impact of the implementing acts of the TPD and assess those within the context of FCTC ratification at an EU level. The specific objectives are to evaluate the social and behavioral impact of TPD implementation and FCTC implementation, assess support for TPD implementation, document changes in e-cigarette product parameters following implementation of the TPD and finally to enhance innovative joint research collaborations, through the pooling and comparisons across both other EU countries of the International Tobacco Control (ITC) Project, and other non-EU countries.

German NGO Forum on Environment and Development Germany

Marie-Luise Abshagen works with the German NGO Forum on Environment and Development as a Policy Officer on Sustainable Development. She holds a Master of Arts in East Asian Studies and Political Science, studied in Leipzig (Germany), Tübingen (Germany) and Taipe (Taiwan) and has lived in the US, Taiwan, China and South Korea. For many years Ms Abshagen has been engaged in human rights work and the achievement of sustainable development. The German NGO Forum was founded after the UN conference on Environment and Development in 1992. It coordinates the activities of German NGOs in international policy processes on sustainable development.

Kostas Athanasakis

Research Fellow
Department of Health Economics, National School of Public Health, Athens Greece

Dr Kostas Athanasakis, a health economist by training, is a Research Fellow at the Department of Health Economics of the National School of Public Health (NSPH, Athens, Greece) and a visiting professor at the Open University of Cyprus (OUC, Nicosia, Cyprus). Kostas focuses his research and teaching efforts in the fields of Economic Evaluation of Pharmaceuticals, Health Technology Assessment and Pharmaceutical Policy, having published over 150 papers and abstracts, as well as 8 books, during the last 15 years. Kostas is currently the President of the Hellenic Association for Pharmacoeconomics and has, also, served twice as the Co-Chairman of the Research Review Committee of the Annual European Congress of the International Society for Pharmacoeconomics and Outcomes Research (ISPOR).

Leszek Bartłomiejczyk

Consultant
ENSP Poland

Public Sector Expert. In the 90’s member of Science and Technology Development Committee, Polish Government, 1996-98, researcher and head of departments at Military Institute of Informatics, contributed to national security and border protection. 1998-2010, public sector director/executive partner in leading consultancy/ICT: IBM, SAP,Unisys. 2010-15 in SICPA responsible for providing governments in Europe and Asia with anti-fraud track and trace solutions to secure excise tax revenue, protect public health and safety. Currently, conducting research of effective managerial tracking and tracing solutions to combat illicit trade.

Panagiotis Behrakis

Professor
Institute of Public Health of the American College of Greece, George D. Behrakis Research Lab of the Hellenic Cancer Society, Biomedical Research Foundation of the Academy of Athens Greece

Panagiotis K. Behrakis, MD, PhD (McGill, FCCP) is an MD (Athens University) and a PhD (Baylor College of Medicine and Harvard University) and former Adjunct Professor at Harvard University. He is currently the Director of the George D. Behrakis Research Lab at the Hellenic Cancer Society and of the Institute of Public Health of the American College of Greece. Currently he is the PI of the EU funded projects, HEART, EUREST, PRECISE, DIRECT, TOB 0 and is actively involved in a number of other projects (EPACTT, TACK-SHS). He is Chair of the ENSP Scientific Committee, Immediate Former ENSP President and the Editor-in-Chief of the ENSP journal, Tobacco Prevention & Cessation. He is also member of the Board of Regents of the American College of Chest Physicians

Arzu Beklen

Researcher, Lecturer
Turkey

Dr. Beklen received her dental licentiate degree in Ankara, Turkey and then continued her master’s science study on...
biomedical engineering in Istanbul, Turkey. She completed her PhD degree at University of Helsinki (2010), under the supervision of Prof. Yrjo Konttinen and Prof. Timo Sorsa. During her PhD study, Dr. Baklen focused on the host response in periodontal disease and she is a specialist in periodontics.

Ramona Brad
Project Director 2035 Tobacco-Free Romania Initiative
Aer Pur Romania
Romania

Ramona Brad has nearly 18 years of experience in public affairs and corporate communication on the local, regional and international market. Mrs. Brad has held a senior executive position in the private sector and has managed public affairs and corporate relations programs, engaging directly with NGO’s and interest groups across a broad range of stakeholders and policy areas. Mrs. Brad has entailed extensive representation before main governmental institutions in Romania, as well as developed corporate communication programs for the Romanian and regional Balkans marketplaces. She has directly led value-creation advocacy programs for private sector. Ramona Brad is currently engaged in tobacco control projects as a part of focused-NGO’s in Romania, leading a Campaign for Tobacco-Free Kids grant program for Aer Pur Romania, 2035 Tobacco-Free Romania Initiative, as well as engaging broadly in advocating for public health policies for public and private sector. As at 2015, Mrs. Brad has coordinated tobacco-control communication and coalition building efforts, leading to the successful adoption of a comprehensive smoke-free ban and the installation of Romania’s first holistic tobacco control strategy. Mrs. Brad holds a medical degree from the University of Medicine and Pharmacy in Bucharest. She attended extensive executive/leadership training courses and is a qualified trainer in communication and public relations, public speaking, executive leadership.

Nurcan Buduneli
Full professor
Ege University, School of Dentistry, Department of Periodontology
Turkey

Nurcan Buduneli DDS, PhD, Professor (Ege University, Turkey), Dr. Buduneli has received her DDS degree in 1990 from Ege University, Izmir, Turkey. She got the Associate Professor position in 2002 and the Professor position in 2007 at the Department of Periodontology. She visited Bristol Dental School, UK, Copenhagen University, Denmark, and Lousiville University, KY, USA as a guest researcher. Her main interests are aetiology and mechanisms of interactions between periodontal diseases and systemic diseases or conditions, pathogenesis of periodontal and peri-implant diseases. She has published over 95 papers in well-respected scientific journals. She is married and has two kids.

João Maurício Castaldelli-Maia
CEO
Clínica Clima
Brazil/Portugal

João Maurício Castaldelli-Maia, MD is an Affiliated Professor at Department of Neuroscience, Medical School, Fundação do ABC, and PhD student at Department of Psychiatry, Medical School, Universidade de São Paulo. He is President of the ABC Center for Mental Health Studies and holds the position of Early Career Psychiatrist Observer of the Scientific Publications Committee of the World Psychiatric Association. He is also the Member In-Training of the Scientific Publications Committee of the College of Problems on Drug Dependence. His research interests are in tobacco dependence and other substance use disorder treatment, cultural and social psychiatry and epidemiology.

Luke Clancy
Director General, Consultant Respiratory Physician
TobaccoFree Research Institute Ireland (TFRI), Dublin, St James’s Hospital, Dublin
Ireland

Luke Clancy is an academic physician with an international record of accomplishment in the area of smoking and health and of respiratory diseases particularly air pollution, asthma, lung cancer and tuberculosis. His current focus is on the prevention of smoking related diseases by research and advocacy. His first Irish based research was in the field of air pollution, which led to the ban on burning of bituminous coal and made a significant contribution to air pollution literature. He was the civil society leader for the introduction of smokefree legislation in Ireland which became the first country in the world to have a comprehensive total ban on smoking in the workplace including bars, restaurants. As Director of TFRI, he evaluated Smokefree Ireland leading to several important publications. He has continued to promote Smokefree and other Tobacco Control interventions including Point of Sale bans and more recently Plain Packaging. His major research contribution on price and taxation of tobacco is contained in the outputs from the FFP 3 PPACTE project (www.p pacte.eu). He is a current PI on 2 Horizon 2020 projects (LINE-R and TackSHS) and has just published the ESPAD report for Ireland. www.tri.ie

Aslı Çarkoğlu
Faculty member
Kadir Has University
Turkey

Dr. Çarkoğlu completed her doctoral training at Purdue University, USA in Family Studies. She was the project coordinator for the ethnographic component of a Tobacco Efficacy Research Network project (UGTERN), funded by the Robert Wood Johnson Foundation. She completed a postdoctoral fellowship in medical anthropology at University of Arizona School of Anthropology. Since her return to Turkey in 2004, She has been a co-PI on a number of tobacco control projects funded by the Cancer Research UK, Institute for Global Tobacco Control (IGTC), and the Bloomberg Foundation. Since 2013, she is a faculty member at Kadir Has University Department of Psychology.

Bertrand Dautzenberg
Professor in chest medicine
Pitié-Salpêtrière hospital (APNHP), Sorbonne University Iupmc, Paris sans tabac, Alliance centre le tabac
France

Chest physician and professor in chest medicine, Pr Bertrand Dautzenberg develope smoking cessation and public health intervention for end tobacco. He set up smoking cessation clinics in France and a smoke-free hospital network. He receive WHO medail. He make report on passive smoking and was a major contributor of smoking ban in France. He survey from 1991 healthy students smoking habits in Paris. He conduct the 2013 French e-cigarette report. He contribute to a non-pharma ecig status in the directive 2014/08/EU. He work on 3 French e-cigarettes norms (AFNOR). He write 14 books and 30 scientific articles on tobacco.

Athina Diamanti
Midwife, Nurse, PhD candidate
Technological Educational Institute of Athens / National and Kapodistrian University of Athens
Greece

I hold Bachelor’s degrees both in Midwifery and Nursing and a Master’s degree in Intensive Care Nursing. Currently, I am pursuing my PhD with research interest in “Smoking cessation in pregnancy”. I have 5 years of academic experience as a clinical instructor in the Technological Educational Institute of Athens and 12 years of clinical experience with the last two years actively providing numerous pregnant smokers with smoking cessation counseling services in the two largest maternity hospitals in Athens. I am an active member of the ERS and the Hellenic Thracian Society (HTS) and I recently earned a WHO and HTS Trainer’s certification in Smoking Cessation.

Vasilios Diamantopoulos
PhD Doctor Public Health / Chairman / Gen. Director
Pan-Hellenic Union Doctors Of Public Health/ General Direction Of Public Health Region Of Peloponnese, Greece
Greece

Mr. Vasilios Ath. Diamantopoulos was born in Tripoli in 1962. He graduated from the School of Dentistry at the University of Athens and specialized in Oral and Maxillofacial Surgery.

Xavier Continente
Researcher at Evaluation and Intervention Methods Service
Public Health Agency of Barcelona
Spain

Xavier Continente, BSc Pharmacy degree, MPH, PhD, is a researcher at the Evaluation and Intervention Methods Service of the Public Health Agency of Barcelona. He is member of the Biomedical Research Centre Network for Epidemiology and Public Health (CIBERESP), the Evaluation of Public Health Biomedical Research Centre Network for Epidemiology and Public Health (CIBERESP), the Evaluation of Public Health Biomedical Research Centre Network for Epidemiology and Public Health. (INWAT Europe).
in Denmark and in Germany. He has postgraduate degrees in Public Health PhD (at the University of Ioannina “deficiency in Vitamin D”) and he also has a postgraduate scholarship in the management of public funds. He teaches in the Nursing department at the University of the Peloponnese and at post graduate level he teaches “Public Health Care management and Crisis Management”. He began his career working in the private sector and later on at the General Hospital of Tripoli as supervisor of the Maxillofacial department. He was chosen by and joined the sector of Doctors of Public Health (NHSS) and worked in the former prefecture of Arcadia which later became the Region of Peloponnese and is general director of public health at the region. He is a member of the Board of Selectors in the NHS and is currently Chairman of the Panhellenic Union of NHS doctors of public health. He is also general secretary of the Greek science society of social medicine. He has made announcements in International and Greek scientific conferences, five publications of research in foreign periodicals, he has written a complete study entitled “The Management of Epidemic Dangers by Insect Transmission (mosquitoes, phlebotomists and other pests). The Creation and Organization of the Vigilance Mechanism, Rapid Reaction and Destruction of Transmission Insects”. He has taken part in a series of conventions both as a speaker and also as an organizer. 

Pascal Diethelm
President (OxyRomandie), vice-president (CNCT)
OxyRomandie, CNCT
Switzerland/ France

Pascal Diethelm, a former staff member of the World Health Organization, has been dedicating himself to tobacco control for 20 years. He initially specialized in the use of tobacco industry documents, blowing the whistle on the case of a Swedish university professor who had worked secretly for Philip Morris for 30 years while officially conducting studies which denied the toxicity of second hand smoke. This led to what is known as the Rylander Affair. He then concentrated his interest in industry densit tactics and public policy interference. Recently, he worked on countering an attempt by the tobacco industry to use a reputable Swiss academic institution to create and spread misleading science on the efficacy of plain packaging.

Caroline Dresler
President
Human Rights and Tobacco Control Network
USA

Caroline Dresler, MD, MPA, is the President the Human Rights and Tobacco Control Network. She has been the Director for the Arkansas Department of Health Tobacco Prevention and Cessation Program. Before Arkansas, she was the Head of the Group for Tobacco and Cancer at the International Agency for Research on Cancer in Lyon, France. She is a USA Board Certified Thoracic Surgeon with Surgical Oncology training, with a specific interest in the prevention of lung cancer. Her passion is utilizing the human rights framework to improve tobacco control. Her goal is to have fewer people dying from tobacco, specifically from tobacco-caused lung cancer.

Estevé Fàbregas
Director of the Epidemiology and Prevention programmes
Head of Tobacco Control Unit
Associate Professor of Epidemiology and Public Health
Catalan Institute of Oncology (ICO)
Beilite Biomedical Research Institute (IDIBELL)
Barcelona University of Barcelona
Spain

Estevé Fàbregas, MD, MPH, PhD, is the Head of the Tobacco Control Unit of ICO and the Associate Professor of public health at University of Barcelona. His main areas of research include tobacco control, electronic cigarettes, and tobacco epidemiology. He has been Principal or Associate Investigator, or advisor, in several research projects in tobacco control funded by SANCO and FP7. He has published over 220 papers (150 as first or corresponding/senior author) in peer reviewed journals (http://pubmedcentral.nih.gov) with an h-index of 31 (Web of Science). Dr. Fernández has provided advice on tobacco control to WHO (EURO region and TPI program).

Filippo Filippidis
Lecturer in Public Health
School of Public Health, Imperial College London
UK

Dr Filippidis is a Lecturer in Public Health at the School of Public Health, Imperial College London. He has a background in medicine and health promotion and has earned an MPH from the Harvard School of Public Health, with a focus on Quantitative Methods. His current research is focused on the epidemiology of tobacco and e-cigarette use, and on tobacco control policies in European countries. He has also studied the effects of the recent economic crisis on health, lifestyle risk factors -including smoking - and health services.

Dimos Fotopoulos
Vice President
Greek Organization Against Drugs (OKANA)
Greece

Dimos Fotopoulos is an addiction psychiatrist and has a Master’s Degree in Bioethics (M.A). From 2015 onwards he is Vice President of the Greek Organization Against Drugs (OKANA) -the largest organization in addiction treatment in Greece. He is a trainer in Smoking Cessation since 2009 (Greek Thoracic Society) in the fields of nicotine addiction, smoking cessation in psychiatric patients, motivational interviewing and use of Drama Therapy techniques. He is a Member of the European Respiratory Society (E.R.S) Tobacco Control & Health Education) since 2013 and ERS Smoking Cessation Trainer.

Marcela Fu
Researcher at the Tobacco Control Unit
Catalan Institute of Oncology (ICO), Beilite Biomedical Research Institute (IDIBELL)
Barcelona University of Barcelona
Spain

Marcela Fu, BSc, PhD, is an Associate Researcher at the Tobacco Research Unit of ICO and assistant professor at the International University of Catalonia. Dr. Fu main area of research is tobacco control, including the characterisation and determinants of addiction, and secondhand tobacco smoke in public enclosed and outdoor settings. She has published 43 papers (11 as first author) in peer reviewed journals. She serves as reviewer in BMC Public Health, Tobacco Control, Nicotine and Tobacco Research, among other journals.

Silvano Gallus
Head of Laboratory of Lifestyle Epidemiology, Department of Environmental Health Sciences
Instituto di Ricerca Farmacologica “Mario Negri”
Italy

Dr Silvano Gallus is Head of Laboratory of Epidemiology at Instituto di Ricerca Farmacologica “Mario Negri”. In almost 20 years of experience in the field of epidemiology and public health, he has gained wide knowledge and expertise in epidemiology, public health, biostatistics and computation, collaborating in various national and international projects. Since 2001, he is responsible for the epidemiology of tobacco smoking in his Institute; working mainly in the monitoring of smoking prevalence, its determinants and strategies to control tobacco in Italy and Europe. He is the author of more than 225 papers published in peer-reviewed journals.

Laura Graen
Advisor
Unfairtobacco.org, Health and Trade Network
Germany

Laura Graen is a freelance tobacco control expert who supports non-governmental and inter-governmental organizations with research and advocacy. Her focus is on tobacco industry misconduct, trade and investment agreements, human rights violations and tobacco farming. She received an MA degree in social anthropology from Martin Luther University of Halle-Wittenberg, Germany, in 2013. She is a co-founder of Unfairtobacco.org [2004] and a founding member of the Health and Trade Network [2010].

Giuseppe Gorini
Qualified as Associate Professor of Public Health
Occupational & Environmental Epidemiology Section
Risk Factors & Lifestyles Epidemiology Unit
Cancer Research & Prevention Institute (ISPPO), Florence
Italy

Giuseppe Gorini is a Senior Researcher at the Epidemiology Unit of the World Health Organization. He is a specialist in the field of occupational health and safety, with specific reference to the occupational risks of smoking, tobacco use and other health-related behaviors. He has been involved in several international projects related to the control of tobacco use and its consequences. His current research focuses on the epidemiology of tobacco use and its consequences, particularly in the context of the occupational setting. He is the author of several publications in international peer-reviewed journals and has presented his research at various international conferences.

Margareta Haglund
Senior Advisor, Tobacco Control
TobaccoFacts - Independent ThinkTank
Sweden

Margareta Haglund is a well known expert in tobacco control both in Sweden and globally has a broad expertise in tobacco control in particular women and tobacco. 1979-1992 she was the head of tobacco control at the National Board of Health and Welfare. 1992-2011 she had the same position at the Institute of Public Health inc assisted the MoH. Since 2011 she is senior advisor at TobaccoFacts in Sweden. Margareta is also the past president of International Network of Women Against Tobacco (INWAT) and has been temporary expert at WHO HQ. She received the May 31st WHO Medal and 2006 the prestigious Luther Terry Award.
SPEAKERS' BIOGRAPHIES

Arusyak Harutyunyan  
Senior researcher  
Gerald and Particia Turjanian School of Public Health, American University of Armenia  
Armenia

Dr. Arusyak Harutyunyan is a Senior Researcher in the Gerald and Particia Turjanian School of Public Health, American University of Armenia. She has been involved in Tobacco Control projects and currently is the Principal investigator of the “Integrating evidence-based tobacco control services into tuberculosis control in Armenia” project. Dr. Harutyunyan is the Coordinator [a volunteer position] of the Coalition for Tobacco Free Armenia, a union of 30 NGOs. In 2012, she was competitively selected to receive a Scholarship and completed the Global Tobacco Control Certificate program at the Johns Hopkins Bloomberg School of Public Health. In 2015, Dr. Harutyunyan completed the Mayo Clinic Nicotine Dependence Center’s Tobacco Treatment Specialist Certification Training Program and received Mayo Clinic’s provisional Tobacco Treatment Specialist Certificate. She has published in peer-reviewed journals and presented her work in various international scientific conferences.

Varduhi Hayrumyan  
Research Assistant  
Zvart Avedisian Onanian Center for Health Services Research and Development, Gerald and Patricia Turjanian School of Public Health, American University of Armenia  
Armenia

Varduhi Hayrumyan, MS, MPH, has been a Research Assistant in the Zvart Avedisian Onanian Center for Health Services Research and Development (CHSR). American University of Armenia (AUA), since 2015. She has been involved in a number of projects conducted by the CHSR, particularly those focusing on Tobacco Control (Implementing the FCTC Article 14 in Armenia through Building National Capacity in Smoking Cessation Training, EPACTT (European Accreditation Curriculum on Tobacco Treatment). V. Hayrumyan earned her MS in Biology from Yerevan State University in 2013 and MPH from AUA School of Public Health in 2016. Her thesis work was devoted to the investigation of smoking cessation practices among myocardial infarction patients in Armenia.

Aleksandra Herbec  
MSc MA (Hons), Project Lead and Consultant at Health Promotion Foundation, and PhD Candidate  
Health Promotion Foundation, Poland

Dr Aleksandra Herbec is a psychologist specialising in tobacco control, health behaviour change, and digital interventions. Aleksandra works with Prof Wietold Zatezolski at the Health Promotion Foundation in Poland where she now leads new programmes focused on assessment of tobacco use among patients and on capacity building in cessation among healthcare professionals, including Project STAR funded by Global Bridges. She is also a final-year British Heart Foundation PhD Candidate at the UCL Department of Behavioural Science and Health, where she works within Prof Robert West’s team. Aleksandra’s doctoral research focuses on mixed-methods development and evaluation of smartphone-based cessation programmes and tools.

Sara Hitchman  
Lecturer  
King’s College London  
UK

Dr. Hitchman completed her PhD in Psychology at the University of Waterloo in Canada. Her research interests include global tobacco control policy, e-cigarettes, health warnings on tobacco products, and standardised packaging.

Linda Marie Kaljee  
Senior Investigator  
Global Health Initiative, Henry Ford Health System  
USA

Linda Kaljee is trained in medical anthropology and has worked for over 25 years in community-based research among diverse populations. She has worked with rural-to-urban migrants, female sex workers, orphaned and vulnerable children, and in urban and rural communities in the United States, Vietnam, China, India, Thailand, Nepal, Zambia, Zanzibar, Macedonia, Colombia, Haiti, and The Bahamas. Her areas of expertise include use of mixed methods, qualitative research, psychosocial scale adaptation, and health intervention development and evaluation. Dr. Kaljee’s research has focused on adolescent sexual health, psychosocial well-being, healthcare utilization, antimicrobial resistance, and socio-behavioral research related to vaccine introduction and trials.
Paraskevi Katsaounou  
Chair of Group 6.3 Smoking Cessation and Health Education of ERS  
Chair of Group of Public Health and Smoking Cessation of HTS (Hellenic Thoracic Society)  
Assistant Professor of Pulmonary Medicine  
Medical School National and Kapodistrian University of Athens, Evangelismos Hospital  
Greece  
Hellenic Thoracic Society  
European Respiratory Society ENSP  
Greece  

Paraskevi Katsaounou is an Assistant Professor of Pulmonary Medicine at National and Kapodistrian University of Athens. She is an experienced clinician at the first ICU Clinic of Evangelismos Hospital where she actively runs the Asthma and Smoking Cessation Outpatient Clinic. Being very active in Tobacco Control and Smoking Cessation in the last twelve years she ascended both as Chair of Smoking Cessation and Public Health Group of Hellenic Thoracic Society and Chair of Group 6.3 Tobacco, Smoking Cessation and Health Education ERS and member of Tobacco Control Committee of ERS respectively. She is a qualified trainer in Smoking Cessation of Hellenic Thoracic Society, ERS and WHO.

Katie Kemper  
Executive Director  
Global Bridges  
USA  
Katie Kemper, MBA, PMP has built and managed successful and productive international teams in the for-profit and not-for-profit sectors, focusing on public health issues, particularly tobacco control. Currently Executive Director of Global Bridges Healthcare Alliance for Tobacco Dependence Treatment, at Mayo Clinic, Katie’s responsibilities include coordination of technical support, network building, evaluation and dissemination for grant projects representing all WHO regions. Katie has also worked with the Campaign for Tobacco-Free Kids in Washington, D.C as part of the Bloomberg Initiative, and for GlassSmithKline Consumer Healthcare as Vice President of global smoking control. Katie received her Master’s Degree in Business Administration from Columbia University in New York City.

Nikolaos Koulouris  
Professor of Respiratory Medicine  
National and Kapodistrian University of Athens Medical School  
“SOTIRIA” Hospital, Athens  
Greece  

I graduated in 1980 from the National and Kapodistrian University of Athens Medical School, Greece. I was trained in respiratory medicine at the University Department of Respiratory Medicine in SOTIRIA Hospital, Athens, Royal Brompton and Kings College Hospitals, London, UK under the supervision of Professors John Jardanoglou, Malcolm Green, and John Moxham, respectively. I acquired the Diploma in Thoracic Medicine of the University of London, in 1981. I also finished an M.D. degree thesis at the University Department of General Thoracic Medicine of the National and Kapodistrian University of Athens Medical School, in 1983. I received a PhD degree from the Respiratory Muscle Laboratory, Cardiothoracic Institute, University of London, where I developed techniques to detect strength and fatigue of the respiratory muscles, in 1989. I also worked at the Meakins-Christie Labs in Montreal, McGill University, QC, Canada with the eminent Professor J. Milic-Emili, where we developed a novel technique, namely, the negative expiratory pressure technique (NEP). I am currently full Professor in Respiratory Medicine and Head of the 1st University Respiratory Medicine Department of “SOTIRIA” Chest Hospital of Athens, Greece.

Anna Kokkevi  
Professor  
Department of Psychiatry  
Athens University Medical School  
Greece  

Anna Kokkevi, Ph.D. is Professor Emeritus of the Department of Psychiatry of the Athens University Medical School, Head of the Epidemiology & Psychosocial Research in the field of Substance Use and Psychosocial Health in the University Mental Health Research Institute (UMHRI) and member of its Management Board. AK has made a significant contribution in Greece and internationally in the fields of drug and alcohol prevention, treatment, research and policy. She has established, developed and led several new services in Greece such as the Greek REITOX Focal Point on drugs and contributed decisively in the expansion of Prevention Centers for substance use and psychosocial health in local communities all over the country.

Konstantin Krasovsky  
Head of the tobacco control unit  
Ukrainian Institute for Strategic Research of the Ministry of Health of Ukraine  
Ukraine  

In 1994 - Consultant of the Alcohol, Drugs and Tobacco Unit WHO Regional Office for Europe. Since 1995 - director, Alcohol and Drug Information Center, Ukraine. In 2007-2009 – National Tobacco Control Officer, WHO Country Office in Ukraine. Since 2009 he works in the Institute of the Ministry of Health. He took part in WHO tobacco control missions to the former USSR countries. Since 2014 he is a World Bank consultant on tobacco control. He was also a participant of the drafting of the national smoking control strategy of Ukraine. Currently working as the Director of the International Legal Consortium (ILC) in Washington, DC – part of the Bloomberg Initiative to Reduce Tobacco Use. He is an expert in developing and implementing national smoking control strategies.

Stephen Lequet  
Director  
DNF–Les Droits des Non-Fumeurs  
Board Member  
ENSP-European Network for Smoking and Tobacco Prevention  
Assistant Professor  
Sciences Po Paris  
France  

Stephen Lequet is Director of DNF–Les Droits des Non-Fumeurs, a French NGO acting, for more than 40 years, on several areas of Tobacco control: Judicial Watch and Litigation, Education and Health Promotion, Communication, Infrastructure and Advocacy. DNF is funded by the French Ministry of Health. Stephen is also Board Member of ENSP-European Network for Smoking and Tobacco Prevention. He is at the same time Assistant Professor in Public Law and Political Science at Sciences Po Paris (Institute of Political Studies in Paris). He was Advisor to the French Social Affairs Minister.

Patricia Lambert  
Director  
The International Legal Consortium (ILC)  
THE CAMPAIGN FOR TOBACCO-FREE KIDS (Board Member of International Network of Women Against Tobacco (INWAT); Action on Smoking or Health USA (ASH-US); I3 African Tobacco Control Alliance (ATCA) and ex-Board member of the Framework Convention Alliance (IFCA)  
South Africa  
Living and Working in Washington, DC USA “Patricia Lambert is a South African human rights lawyer and social justice advocate currently working as the Director of the International Legal Consortium (ILC) for the Campaign for Tobacco-Free Kids (CTFK) in Washington, DC – part of the Bloomberg Initiative to Reduce Tobacco Use. In the past nine years, the ILC has provided legal technical assistance to over 80 countries. For ten years, during the Mandela and Mbeki administrations, Patricia worked as a legal adviser to the South African government on a range of human rights, international trade, environmental and health issues. She served as the Chief Negotiator for the South African government for the Framework Convention on Tobacco Control (FCTC), the world’s first public health treaty.”

Anthony Laverty  
Research Fellow in Public Health  
Dr Laverty is a Research Fellow in Public Health at Imperial College London, where he works on tobacco in addition to physical activity. His tobacco control research has included the impacts of smoke free legislation on child health, the epidemiology of e-cigarette use, and the provision of smoking cessation advice. His current work focuses on issues around prices and taxation strategies around tobacco.

Anna Kokkevi  
Professor  
Department of Psychiatry  
Athens University Medical School  
Greece  

Anna Kokkevi, Ph.D. is Professor Emeritus of the Department of Psychiatry of the Athens University Medical School, Head of the Epidemiology & Psychosocial Research in the field of Substance Use and Psychosocial Health in the University Mental Health Research Institute (UMHRI) and member of its Management Board. AK has made a significant contribution in Greece and internationally in the fields of drug and alcohol prevention, treatment, research and policy. She has established, developed and led several new services in Greece such as the Greek REITOX Focal Point on drugs and contributed decisively in the expansion of Prevention Centers for substance use and psychosocial health in local communities all over the country.

Konstantin Krasovsky

Ukrainian Institute for Strategic Research of the Ministry of Health of Ukraine  
Ukraine  

In 1994 - Consultant of the Alcohol, Drugs and Tobacco Unit WHO Regional Office for Europe. Since 1995 - director, Alcohol and Drug Information Center, Ukraine. In 2007-2009 – National Tobacco Control Officer, WHO Country Office in Ukraine. Since 2009 he works in the Institute of the Ministry of Health. He took part in WHO tobacco control missions to the former USSR countries. Since 2014 he is a World Bank consultant on tobacco control. He was also a participant of the drafting of the national smoking control strategy of Ukraine. Currently working as the Director of the International Legal Consortium (ILC) in Washington, DC – part of the Bloomberg Initiative to Reduce Tobacco Use. He is an expert in developing and implementing national smoking control strategies.

Stephen Lequet  
Director  
DNF–Les Droits des Non-Fumeurs  
Board Member  
ENSP-European Network for Smoking and Tobacco Prevention  
Assistant Professor  
Sciences Po Paris  
France  

Stephen Lequet is Director of DNF–Les Droits des Non-Fumeurs, a French NGO acting, for more than 40 years, on several areas of Tobacco control: Judicial Watch and Litigation, Education and Health Promotion, Communication, Infrastructure and Advocacy. DNF is funded by the French Ministry of Health. Stephen is also Board Member of ENSP-European Network for Smoking and Tobacco Prevention. He is at the same time Assistant Professor in Public Law and Political Science at Sciences Po Paris (Institute of Political Studies in Paris). He was Advisor to the French Social Affairs Minister.

Olga Knorre  
Senior Program Coordinator  
Eurasia Programs  
Campaign for Tobacco-Free Kids  
Russian Federation  

Olga Knorre is a public health expert with more than a decade of experience in Tobacco Control, Road Safety, HIV/AIDS, TB, and HCV. Ms. Knorre has worked for the Campaign for Tobacco-Free Kids since 2007. As Senior Program Coordinator, Olga Knorre ensures implementation of tobacco control and road safety initiatives in the countries of East Europe and the former Soviet Union. She also provides strategic and technical support to in-country partners. Ms. Knorre’s work in Russia supported the development, adoption, and implementation of strong tobacco control laws in line with the Framework Convention on Tobacco Control (FCTC). Russia’s experience is now being used as a model for neighboring countries and resulted in the adoption of effective pictorial warning regulation for all countries of the Eurasian Economic Union. Olga Knorre attained her Master’s Degree in Public Health in 2012 at I.M. Sechenov First Moscow State Medical University, specializing in Tobacco Control. She graduated from the Academy of National Economy under the Government of the Russian Federation, as a Bachelor in Project Management in 2001.*
Christos Lionis  
Professor of General Practice and Primary Health Care  
Faculty of Medicine, University of Crete  
Greece

Lionis Christos, MD, PhD, FRCP(Edin), FWOCA, FESC, is a Professor of General Practice and Primary Health Care at the University of Crete, Medical University of Crete and Head of the Clinic of Social and Family Medicine at the School of Medicine, University of Crete. With a passion for the importance and the value of PHC and Family Medicine, Christos is actively involved in the development of Primary Care and General Practice in Greece. He currently co-ordinates a thriving GP network with more than 20 GPs, and is also responsible for the supervision of a number of PhD students. Christos and his research team at the University of Crete are involved in four FP7 European funded projects (one as coordinator), in two Third Health Programmes for the Union’s action in the field of health 2014-2020 - CHAFAE and currently in one HORIZON 2020. Christos is involved in an editorial and advisory capacity with a number of international journals. He also is a member of the Executive Boards of various professional organisations including that of WOCA Working Party on Mental Health where he is acting as Vice Chair and the International Federation of Primary Care Research Network. He has been awarded as Honorary Fellow for the Royal College of General Practitioners, the World Organization of National Colleges, Academies and Academic Associations of General Practitioners/Family Physicians and the European Society of Cardiology. Christos has published 311 papers in international journals (cited in PubMed).

Ángel López-Nicolás  
Professor of Economics  
Universidad Politécnica de Cartagena  
Spain

Ángel López-Nicolás, BSc, PhD, conducts research in health economics and has published in the leading journals in the field (Journal of Health Economics, Health Economics, European Journal of Health Economics, Social Science and Medicine, etc.). One of his areas of specialization is Economics of Tobacco, with publications in Tobacco Control, Nicotina and Tobacco Research, European Journal of Cancer Prevention, Revista Española de Salud Pública etc. He has been the leading researcher in several tobacco economics research projects funded by competitive calls and has acted as Associate Editor of the journal “Nicotina and Tobacco Research.

Francisco Rodríguez Lozano  
President  
ENSP  
Spain

Francisco Rodríguez Lozano graduated in Pharmacy from the University of Murcia, Spain, and he completed his PhD at the University of Murcia in 1992. He is a reader in the Faculty of Pharmacy, Department of Pharmacy Practice, Pharmacy School of the University of Murcia and is currently Full Professor of the same department. Francisco Rodríguez Lozano is the President of the European Network of Tobacco Control Researchers (ENTOCR) and the President of the Spanish Society of Nicotine and Tobacco Research (SNTT). He is also the President of the European Society on Tobacco and Health (ESTH). Francisco Rodríguez Lozano is a co-founder of the “EPHAPS”, a European project to monitor the health effects of tobacco smoke. He has been the leading researcher in several tobacco economics research projects funded by competitive calls and has acted as Associate Editor of the journal “Nicotina and Tobacco Research.

Juliet McDonnell  
Education Co-ordinator  
International Primary Care Respiratory Group (IPCRG)  
UK

Juliet is the Education Co-ordinator for the IPCRG and has been involved in developing and testing the IPCRG education strategy since 2011. This includes the global flagship initiative - ‘E-quality’ - which provides support and seed funding for pilot education programmes in member countries and a pilot ‘Teach the Teacher’ programme - working with eight European countries on developing education programmes to support capacity building for treatment of patients with difficult to manage asthma. In addition to her work with IPCRG, Juliet has a broad interest in organisational learning and a portfolio of work in higher education working with Lancaster University and the Open University and with NHS organisations across the UK.

Rachel Melsom  
Director  
Tobacco Free Portfolios  
UK

Rachel completed her first degree in Genetics at University College London in 1997 then pursued an extensive career in advertising, commercial joint venture development, and founded a business advisory consultancy. In 2008 she retrained as a Doctor, with a desire to improve clinicians’ understanding of financial issues pertinent to delivery of excellent clinical care; to integrate this understanding into cost effective care models, including managing care delivery and the precipitating factors of disease. Tobacco Free Portfolios engages with senior financial industry executives to share information on the medical and societal cost of continued investment in the Tobacco Industry, and encourage Tobacco Free Investment.

Nino Maglakelidze  
Head of Tobacco Control Unit  
National Center for Disease Control and Public Health  
Georgia

Dr Nino Maglakelidze is working in public health since 2004. She is Head of Tobacco Control Unit at the National Center for Disease Control and Public Health of Georgia. She also serves as European Regional Coordinator for World Health Organization Framework Convention on Tobacco Control (WHO FCTC). Her special interest is in health promotion, social determinants of non-communicable diseases, and the links between these diseases and the development agenda. Dr Nino Maglakelidze graduated from Tbilisi State Medical University and received her master degree from Charité Universitätsmedizin Berlin. She speaks fluent English, Russian and good German and French. Her mother tongue is Georgian.

Maria J. López  
Senior researcher  
Evaluation and Intervention Methods Service  
Public Health Agency of Barcelona  
Spain

Maria Jose López Medina is currently a senior researcher at the Evaluation and Intervention Methods Service of the Public Health Agency of Barcelona. She is also the Head of the research group of Evaluation of Public Health Programs and Policies from the Biomedical Research Centre Network for Epidemiology and Public Health (CIBERESP) as well as the head of the Evaluation of Public Health Programs and Policies research group from the Agency for Management of University and Research Grants (AGAUR). She has coordinated different national and international projects related to the secondhand smoke exposure assessment.

Alessandra Lugo  
Researcher  
Department of Epidemiology, Istituto di Ricerche Farmacologiche "Mario Negri"  
Italy

Alessandra Lugo holds a degree in Biostatistics from the University of Milan-Bicocca, and a PhD in Biomedical Statistics from the University of Milan. She is researcher at the Department of Epidemiology of Mario Negri Institute since 2011. Since the beginning of her career, she was involved in the field of tobacco control in Italy and Europe. In only 5 years, she published more than 25 papers in peer-reviewed journals.

Ute Mons  
Head of Cancer Prevention Unit  
German Cancer Research Center (DKFZ)  
Germany

Ute Mons studied Sociology and Economics at the University of Heidelberg. She holds a PhD in Epidemiology and a habilitation in Epidemiology and Public Health. She has been working as a researcher at German Cancer Research Center (DKFZ) since 2007, and is head of the Cancer Prevention Unit since September 2016. Ute Mons has co-authored more than 70 research articles in the field of tobacco control and epidemiology. In 2017, she was awarded one of the ECL ECToH Young Professional Awards recognizing her contribution to tobacco control.

Mimi Nichter  
Professor  
University of Arizona, School of Anthropology  
USA

Mimi Nichter is Professor of Anthropology and Public Health at the University of Arizona. She has conducted longitudinal ethnographic research in South and Southeast Asia and the U.S. and has published books among adolescents and young adults, tobacco cessation, and tobacco marketing and advertising in low and middle income countries. She served as Co-Chair of the ECTRIS project participant ENSP 2016 and President of the Romanian Academy 2017.

Florin Mihaltan  
Past President  
Romanian Society of Pneumology  
Romania

• Member of the Scientific Committee JUAFLD “Tobacco and Health” 1994-
• Contact for the “International Agency on Tobacco and Health 1994” -
• Council member EMA/SH-Sgits (Spain) - 18-21.11.1993

Rachel completed her first degree in Genetics at University College London in 1997 then pursued an extensive career in advertising, commercial joint venture development, and founded a business advisory consultancy. In 2008 she retrained as a Doctor, with a desire to improve clinicians’ understanding of financial issues pertinent to delivery of excellent clinical care; to integrate this understanding into cost effective care models, including managing care delivery and the precipitating factors of disease. Tobacco Free Portfolios engages with senior financial industry executives to share information on the medical and societal cost of continued investment in the Tobacco Industry, and encourage Tobacco Free Investment.

#ensp2017
Investigator on two NIH grants to develop capacity for tobacco cessation in India and Indonesia (www.quittobaccointernational.org). She is the Principal Investigator on a Global Bridges grant to develop culturally appropriate tobacco cessation in Istanbul, Turkey. Dr. Nicther is the author of Lighting Up: The Rise of Social Smoking on College Campuses (New York University Press, 2015)

Iveta Nohavova
Researcher, educator

Society for Treatment of Tobacco Dependence
Czech Republic

Iveta has clinical experience from both outpatient and inpatient oncology settings. She is currently enrolled as a doctorate student at Charles University in Prague with study focus on preventive medicine. Her dissertation will be on tobacco control and smoking practices among Czech nurses. Presently, Iveta collaborates with the Society for Treatment of Tobacco Dependence in Prague and is leading the “Eastern Europe Nurses’ Centre of Excellence for Tobacco Control”. She is also a researcher in Tobacco cessation within TB programmes – a project funded by EU’s Horizon 2020. Additionally, she works part-time as Projects Manager for European Oncology Nursing Society.

Mark Parascandola
Epidemiologist

National Cancer Institute
USA

Mark Parascandola is an Epidemiologist with the Tobacco Control Research Branch (TCRB) in the Division of Cancer Control and Population Sciences (DCCPS) at the National Cancer Institute (NCI). He has authored numerous published articles on tobacco use prevention, tobacco control policy, and epidemiologic research methodology. He was an editor for the NCI/UDC report Smokeless Tobacco and Public Health: A Global Perspective (2014) and for the two-volume encyclopedia Tobacco: Its History and Culture (2005). As a Program Director at NCI, Dr. Parascandola currently oversees a research portfolio with a focus on tobacco products, smokeless tobacco, and international tobacco control research.

Sophia Papadakis
Scientist

University of Ottawa Heart Institute

Adjunct Professor
Facility of Medicine, University of Ottawa

Visiting Scientist
Clinic of Social and Family Medicine, University of Crete Canada/Greece

Dr. Papadakis is a scientist at the University of Ottawa Heart Institute and Assistant Professorin the Faculty of Medicine at the University of Ottawa (Canada) and Visiting Scientist in the Clinic of Social and Family Medicine at the University of Crete (Greece). Dr. Papadakis received her Ph.D. in 2011 from the Faculty of Public Health and Health Systems at the University of Waterloo. Dr. Papadakis’ expertise lies in health behaviour change and population health. Dr. Papadakis research focus has been on the design and implementation of tobacco treatment and other interventions in community and health care settings.

Athanasia Patak"a
Assistant Professor

Respiratory Medicine in Medical School of Aristotle University of Thessaloniki Greece

Dr. Patak"a is an Assistant Professor of Respiratory Medicine in Medical School of Aristotle University of Thessaloniki Greece. She has been working from 2011 in the Respiratory Failure Unit of G Papanikolaou Hospital in Thessaloniki Greece. She is responsible for the Clinic of Smoking Cessation, the Sleep Laboratory and the Clinic of Sleep Disorders. The main fields of her scientific activities are smoking cessation and sleep breathing disorders. She was a speaker in several congresses, seminars and postgraduate courses. The last 9 years most of her lectures are on subjects related to smoking cessation and sleep disorders. She is a Member of the European Respiratory Society, the European Sleep Research Society, the Greek National Group of Smoking Cessation and Sleep, the European Sleep Apnea Database (ESADA) and the Greek Society of Sleep Research.

Jan Peloza
Director

No Excuse Slovenia/MJTR Slovenia

Jan is an engineer in computing and informatics and currently as an assistant he is focused on the preventive aspect of smoking cessation. He was the first president of the Alcohol Policy Youth Network and the founder of one of the most prominent non-governmental organizations, the Youth Network No Excuse Slovenia. Being a youth worker for the last 15 years, he contributed to the development of the European health promotion and health-advocacy sector, while at the same time as a trainer and facilitator helped young people to become socially engaged as organizers of many successful international events. As a co-founder of Sustainawave – the global youth partnership for education on sustainable development and the European Environmental and Health Youth Coalition, he showed leadership towards a world free from fossil fuels, with a special interest in green washing – environmental misleading by big businesses. Jan is a member of the World Economic Forum Global Shapers’ Community and he received a national award for a long-term special contribution to the development of the Slovenian youth sector and a European Youth Award for the most outstanding project in the category “Empowering young people through meetings with decision makers”. He is currently director of the Institute for Youth Participation, Health and Sustainable Development and Foundation Mabin that is in charge of the European Youth Card in Slovenia. Moreover, Jan is an alternate board member of the WHO Partnership for Maternal, Newborn and Child Health.

Cristiano Piccinelli
Epidemiologist

Center for Epidemiology and Prevention in Oncology of Piedmont - University Hospital “Città della Salute e della Scienza”, Turin Italy

Cristiano Piccinelli, biologist and biostatistician, works like epidemiologist in the Center for Epidemiology and Prevention in Oncology of Piedmont Region. His research interests lie in the area of public health, in particular primary prevention and socioeconomic inequalities, the activities focused on drawing up regional guidelines, giving scientific support and training to professionals in planning, implementing and evaluating prevention interventions. He works also in strategy development at regional level, in particular in recent years, he coordinate the “Prevention Lab” of Piedmont Region, that aims to identify priorities of prevention interventions based on their cost-benefit ratio, in order to drive regional policies.

Andrew Pipe
Professor

Faculty of Medicine, University of Ottawa
Division of Prevention and Rehabilitation, University of Ottawa Heart Institute Canada

Dr. Andrew Pipe is formerly Chief, Division of Prevention and Rehabilitation at the University of Ottawa Heart Institute and continues his clinical and research activities in that setting. A Professor of Medicine at the University of Ottawa, Dr. Pipe is currently involved in clinical research assessing new approaches to smoking cessation, strategies designed to facilitate exercise adoption, and novel initiatives to prevent cardiovascular disease. Dr. Pipe has addressed audiences in over 30 nations and is frequently consulted on issues related to tobacco use and smoking cessation, drug use in sport, and physical activity and health. In 2002 he was named to the Order of Canada.

Helle Stuart
Project manager

The Municipality of Vallensbaek
Denmark

Master of Science [MSc], Graduate Diploma in Business Administration, 10 years of experience as project manager within tobacco prevention:
• (2007-2009) My Life – my Health, a project amongst unemployed citizens in Copenhagen
• (2009-2012) Freedom from smoking for everybody - a national intervention with the main goal of developing tools for smoking cessation among the socially vulnerable, http://rogfrihed.dk/fileadmin/user_upload/reghht/HoldningsunderoversigtSmoking_is_the_least_summary.pdf

#ensp2017
Speakers’ Biographies

Yannis Tountas
Assistant Professor
Sabancı University
Turkey

Yannis Tountas is an assistant professor at Sabancı University, Cultural Studies Program. She completed her Ph. D. at the City University of New York, the Graduate Center, Department of Anthropology following her B.A. and M.A. at Bosphorus University, Department of Sociology. Her research and teaching interests include globalization and health inequalities, biopolitics, illness narratives, body and gender and anthropology of the Middle East. She has written two articles and edited two book chapters on these topics, including "The Making of Neoliberal Turkey" (with Cenk Özbay, Maral Erol, Ziya Umut Turem, Ashgata 2016).

Olena Tigova
Scientific Project Manager of the Tobacco Control Unit
Catalan Institute of Oncology (ICO)
Bellvitge Biomedical Research Institute (IDIBELL)
Spain

Olena is the Scientific Project Manager at the Tobacco Control Unit. Olena has previous research experience in the area of public health and epidemiology (School of Public Health and AIDS Alliance, Kiev), health inequalities (Center for Health Equity Studies, Stockholm and the Center for Research on Health and Economics, Barcelona) and care coordination (Center for Research in Healthcare Innovation Management, CRHIM, Barcelona). She has experience in project coordination (EC FP7) and has managed research activities in a number of EC-funded projects. Olena holds an MSc in Management of Organisations in healthcare sector (Ukraine) and an MSc in Public Health (Sweden).

Artemis Tsitsika
Assistant Professor
Medical School- Athens University
Greece

Artemis K. Tsitsika, MD, PhD is Assistant Professor in Pediatrics / Adolescent Medicine at the Athens University in Greece and Head of the Adolescent Health Unit (A.H.U) at the Department of Pediatrics, University of Athens. She has received the 2000 award of the Greek Society of Adolescent Medicine for her contribution to the development of Adolescent Health in Greece, and also 12 scientific awards. She is an active member of the European Board of the International Association for Adolescent Health (IAAH). She is a visiting professor in Western Michigan University and University of Kentucky in the United States. She is the scientific supervisor of intense courses on youth with special needs and the State of the Art Adolescent Medicine Course, which takes place yearly in Greece. She has taken part in international meetings as an invited speaker and has published research and review articles on adolescent health. She is heading one of the leading programs on safe internet use and digital citizenship in Greece, as well as various other on youth eating disorders, obesity, sexual issues and vaccinations. E-mail: info@youth-health.gr

Marta Trapero Bertran
Lecturer and Senior Research Fellow
Health Economics Universitat Internacional de Catalunya (UIC)
Spain

Dr. Marta Trapero-Bertran, MSc, PhD, is lecturer and senior researcher on Health Economics at the International University of Catalonia (UIC), Barcelona, Spain. One of her areas of specialization is Economics of Tobacco. She has been leading in Spain the Project of EQUIP'T which is a comparative effectiveness research project in tobacco control, funded by the EU Seventh Framework Programme. She was president of the Spanish Association of Health Economics (AES) and founding member of the European Health Economics Association. She did her PhD on “Incorporating effects in economic evaluation: the case of smoking” at Brunel University, UK, and few MSc programs in UK and Spain. She holds a degree in Economics.

Anna Tzortzi
Scientific Director of George D. Behrakis RESEARCH LAB
Hellenic Cancer Society
Greece

Anna Tzortzi, MD, FCP is Scientific Director of “George D. Behrakis RESEARCH LAB” at the Hellenic Cancer Society and Associate Director of “Institute of Public Health” at The American College of Greece. Dr. Tzortzi is an experienced Respiratory Physician, Clinician, Lung Function Testing Specialist and Researcher with special interest on the impact of active and passive smoking on Lung Function. In the TackSHS project, she is responsible for a study aimed to assess clinical impact of passive exposure to e-cigarettes emissions on the respiratory system.

Constantine Vardavas
EUROPEAN PROJECT COORDINATOR (ENSP)
EU Scientific Relations Director (ERS)
Associate Director
Institute of Public Health (American College of Greece)
Research Associate, (Clinic of Social and Family Medicine Faculty of Medicine University of Crete)
Greece

Constantine Vardavas MD, RN, MPH, PhD is a medical epidemiologist specialized in research methods for tobacco control. Dr. Vardavas has been a leader in European Tobacco Control and spearheaded large multinational cross-country initiatives to combat the tobacco epidemic by using science to support FCTC implementation at an EU Member State level. Before returning to Europe to spearhead tobacco control activities Dr. Vardavas was a Senior Research Scientist of the Harvard School of Public Health, within the Center for Global Tobacco Control.

Established in 2008, the “George D. Behrakis RESEARCH LAB” donated by the Behrakis Foundation, Boston, MA to the Hellenic Cancer Society, is a state of the art laboratory for lung function testing.

Equipped with high-end technology and operated by a team of experts in Respiratory Medicine, the Lab provides high quality and standardized services delivered in a friendly, welcoming environment.

The mission of the Lab is to follow the scientific and technological advances in the field of lung function as well as to contribute and support tobacco prevention through scientific and educational means.

Main research focuses on studying Respiratory Mechanics, Respiratory effects of active and passive smoking as well as developing educational programs for Tobacco Prevention, especially among school age youth.

Lung Function Tests are also provided for clinical purposes and include: flow-volume loop, body plethysmography, lung volumes, flow resistance, diffusion capacity (single breath, intra-breath), maximal inspiratory and expiratory pressures, trans-diaphragmatic pressure, mouth occlusion pressure, nitrogen washout, impulse oscillometry, exhaled nitric oxide, arterial gases analysis and exhaled breath condensate.

In addition, the George D. Behrakis RESEARCH LAB organized and operates the “Smoke Free Greece” campaigns in collaboration with the Institute of Public Health of the American College of Greece. Tobacco control activities of the Lab have contributed to a substantial reduction of smoking prevalence in Greece.

The George D. Behrakis RESEARCH LAB in collaboration with the NGO Sympheli, also offers Lung Function Testing, consultations and specifically designed school-based interventional programs for tobacco prevention, to residents living in remote Greek islands.

The Institute of Public Health was established at the American College of Greece as of January 2015 funded by the Behrakis Foundation, Boston, MA.

The Institute, under direction of Professor Panagiotis Behrakis, aims to develop scientific research and educational programs that advance Public Health. The primary focus is to increase public awareness on common but also on lesser known public health issues. The Institute organizes a series of lectures on Public Health open to school-teachers, parents, health professionals and to all members of the community interested or dealing with public health.

A think-tank of multidisciplinary experts design the operational directions of the Institute on current, urgent and emerging issues in public health.

In addition, the Institute organizes conferences, social events and conducts scientific research, presentations and publications.
The Hellenic Cancer Society constitutes the biggest medico-social organization in the area of Cancer Prevention, Early Detection and Diagnosis programmes in Greece, owning 115 branches throughout the entire country with thousands of members, volunteers and supporters. During the 59 years of constant and hard work, the Society is also the leader in campaigning and raising awareness of the public and the Health professionals in relation to combating cancer with educational seminars, Hospice services are provided to certain cancer patients (groups) and families. The Society promotes also life style activities and tobacco control programmes. Psychosocial Counseling Centers, engaging in supporting cancer patients and families are included in our goals. The Society is providing advice to the Minister of Health in associated anticancer and life style policy. Leaflets and publications are distributed all over the country, in order to support our practical activities. Hellenic Cancer Society is member of the most important international and European against Cancer Organizations such as UICC, ECL, ENSP etc.

The Centre for Health Services Research (CHSR) was established in 1998. It comes under the authority of the Department of Hygiene, Epidemiology & Medical Statistics, Medical School (http://www.med.uoa.gr/), University of Athens (http://www.uoa.gr/). Since 2010, the CHSR is a WHO Collaborating Centre. The CHSR has been intensively involved in planning, organising and evaluating programs and services of health promotion and education for many years. The CHSR actively provides multiple forms of training (vocational, undergraduate, graduate, professional) in health services and health promotion and education to various audiences. Additionally, the CHSR demonstrates a strong scientific interest through involving in research on health services and health promotion development and through producing original research articles, evaluation reports, tools and other publications. A number of institutions and organizations, such as the Ministry of National Education, the Ministry of Health and Social Solidarity, the Social Insurance Institute, the Total Care Network, the network of European Master for Health Promotion and various hospitals and health services make use of the services offered by the CHSR.

Hellenic Thoracic Society (HTS) is a non-profit Organization that brings together physicians, healthcare professionals, scientists and other experts working in respiratory medicine. It was founded in 1946 in the field of respiratory medicine. HTS is one of the leading medical organizations in the respiratory field, with a growing membership representing over 1500 Respiratory Physicians in Greece.

HTS mission is to promote lung health in order to alleviate suffering from disease and drive standards for respiratory medicine globally. Science, education, advocacy and public awareness are at the core of everything we do.

HTS has a joined membership with European Respiratory Society and follows all ERS activities and Guidelines. It also collaborates with other Societies and Organizations in Greece and abroad. The last 15 years HTS organizes educational seminars for Health Professionals for Smoking Cessation and managed to institute at least one smoking cessation clinic in the Hospital of Greece.

HTS incorporated the first website in Greece related to smoking cessation www.denkapnizo.org and dynamically promotes public health and smoking prevention in primary and post primary education institutions through customized interactive approaches (use of fairy tale, puppet show, songs, theatrical acts and drawings).

HTS is active in strategically positioning and connecting the need for smoking cessation and prevention during organized athletic events like the Athens Marathon (last year in collaboration with ERS/ELF).

HTS organizes press conferences associated with updates on tobacco related issues (every year in World No Tobacco Day) but also in other occasions such as COPD day, ASTHMA day etc and publishes leaflets and books with information on smoking prevention and Cessation. HTS crosses disciplinary collaboration with other medical professionals (Cardiologists, Oncologists, Urologists and many others) in order to support hospitalized patients to quit smoking. HTS strongly collaborates with stakeholders in order to promote the implementation of anti-smoking ban in Greece and change public’s point of view.

HTS also collaborates with the WHO for the full implementation of the Framework Convention on Tobacco Control (FCTC) at the European, National and regional levels, as stated in Article 14.

HTS integrates smoking cessation therapy into current management of patients’ respiratory conditions and facilitates research towards the investigation of new treatments for smoking cessation.

The European Federation of Allergy and Airways Diseases Patients’ Associations (EFA) is an independent non-profit organisation with its central office located in Brussels, Belgium. EFA is a European alliance of 35 allergy, asthma and chronic obstructive pulmonary disease (COPD) patients’ associations representing 30% of European citizens currently living with these diseases.

EFA is member of various organisations, including European Patients’ Forum (EPF), Health and Environment Alliance (HEAL), European Network for Tobacco Control & Smoking Prevention (ENSP), Global Allergy and Asthma Patient’s Platform (GAAP) or WHO Global Alliance Against Respiratory Diseases (GARD), and partners with healthcare professionals and other health non-profit organisations.

Global Bridges, established in collaboration with Mayo Clinic and the American Cancer Society, is an international network of healthcare professionals and organizations dedicated to advancing evidence-based tobacco dependence treatment and effective tobacco control policy. Since its inception in 2010, Global Bridges partners and grantees have created culturally-relevant training curricula based on established best practice and trained more than 20.000 healthcare professionals from 62 countries.

Our multilingual website, globalbridges.org helps facilitate collaboration worldwide. Global Bridges, in partnership with Pfizer Independent Grants for Learning and Change, is working with European organisations to make a difference to healthcare providers and their patients who want to stop using tobacco.

Tobacco Prevention & Cessation, (Abbr: Tob. Prev. Cessation; ISSN:2459-3087) is an open access, peer-reviewed online journal that encompasses all aspects of tobacco use, prevention and cessation that can promote a tobacco free society. The aim of the journal is to foster, promote and disseminate research involving tobacco use, prevention, policy implementation at a regional, national or international level, disease development- progression related to tobacco use, tobacco use impact from the cellular to the international level and finally the treatment of tobacco attributable disease through smoking cessation.
Tobacco Induced Diseases encompasses all aspects of tobacco induced diseases and their prevention. The journal aims to further the development of the scientific basis for the biological effects of tobacco smoke and its active components and to describe the distribution of tobacco diseases throughout the world. The journal encourages the submission of articles from all medical, biological and psychosocial disciplines, ranging from medical and dental clinicians, through nurses and health professionals to basic biomedical scientists.

Tobacco Induced Diseases is the official journal of the International Society for the Prevention of Tobacco Induced Diseases.

The Campaign for Tobacco-Free Kids works with non-governmental organizations and governments to pass and implement the policies proven to reduce tobacco use. We provide legal, media, and research support in the United States and around the world to assist in promoting, adopting and implementing tobacco control policies. The Campaign also provides grants to governments and non-governmental organizations in low- and middle-income countries to accelerate progress in tobacco control. We are proud to work as a partner in the Bloomberg Initiative to Reduce Tobacco Use and with funding from the Bill & Melinda Gates Foundation.

The Campaign actively supports the Framework Convention on Tobacco Control. We are a founding member of the Framework Convention Alliance, a coalition of nearly 500 organizations from more than 100 countries that was formed to support FCTC negotiations and ensure the treaty’s proper implementation.

Unfairtobacco.org, a project run by BLUE 21 e.V. in Berlin, Germany, is dedicated to raise awareness of the devastating impact of tobacco growing and tobacco use on sustainable development. Since 2004, Unfairtobacco.org is offering expertise in particular aspects of trade, human rights, and environment occurring in the tobacco sector. Furthermore, it is providing educational material for schools, organising public events, and working with political decision makers at national and international level.

Unfairtobacco.org receives funding from the Federal Ministry for Economic Cooperation and Development (BMZ). We are a member of the Framework Convention Alliance, actively supporting the implementation of the Framework Convention on Tobacco Control, and of the Health and Trade Network, working for trade agreements, that truly safeguard the right to health.

The European Cancer Patient Coalition (ECPC) is the largest European patients’ umbrella organization in the area of cancer diseases, and is based in Brussels. ECPC was set up in 2003, and works for a Europe of equality, where all European cancer patients have timely and affordable access to the best treatment and care available, throughout their life.

The Hellenic Midwives Association is a legal entity and the official professional institution of all midwives that live and work in Greece. It is divided into 9 associations that are activated in different regions of the country. From these 9 associations, the Athens Midwifery Council is the main one. The Hellenic Midwives Association is member of the World Health Organization, European Midwives Association and International Confederation of the Midwives. All midwives in order to practice their profession are required to be registered in the Midwives’ Associations.

The Hellenic Midwives Association supports, represents and works to strengthen midwives on a national basis. At present it has over 6000 members representing the midwifery profession in Greece. The Hellenic Midwives Association works with midwives and midwifery associations globally to secure women’s rights and access to midwifery care before, during and after childbirth.
