

PROPRIETARY BARRELS

It wasn't until Prohibition that American whiskey was commonly sold in bottles. Before that, when a saloon or bar bought whiskey, they purchased a certain number of barrels. Bottles were expensive and it was common practice for the patron to bring their own bottles to be filled by the barkeep from his barrels of whiskey. When bottling became affordable and mechanized, the idea that a single barrel of whiskey could stand on its own eventually died out completely. In 1984, Buffalo Trace's Master Distiller Elmer T. Lee began selecting superior barrels of whiskey and bottling it one barrel at a time. Under Elmer T's watchful eye, Blanton's, the first single barrel of bourbon since prohibition, was born. 8-Row Flint continues this single barrel tradition by traveling to distilleries, visiting the rickhouses where the bourbon rests, and tasting these whiskeys, straight from the barrel. When we discover whiskey that we cannot live without – just like Elmer T. – we buy up the whole barrel.

The following bourbons were selected by Morgan Weber and are available only at Eight Row Flint

The Mexico Flight

Tequila Ocho - Rey Campero Tepextate Mezcal - Flor del Desierto Sotol - La Venenosa Black Label Raicilla..... \$18.75

Learning about Mexico's history of distilled spirits can be a confusing journey for anyone trying to dip their toe into the water of understanding the variations. At Eight Row Flint, we believe that giving people the opportunity to try new things back-to-back proves the easiest way to clarify those differences.

In this flight we picked four spirits from some of our favorite producers to help navigate this potentially unfamiliar territory.

>>> Make It Even Better: Add a Sangrita for \$2.25

Tequila:

From Tequila Ocho, in the state of Jalisco, Mexico. Made from 100% Blue Agave Weber, cooked with steam, fermented in open-air wooden tanks, and distilled twice on copper pot stills. Tequila Ocho sources agave from single estates all over Jalisco and prides itself on maintaining the nuance of terroir between each field.

Mezcal:

From Rey Campero, in the state of Oaxaca, Mexico. Oaxaca is arguably one of Mexico's most famous mezcal-producing regions. The agave variety used here is Tepextate, a wild agave grown in the Southern Highlands of Oaxaca that can take up to 25 years to mature—about three times as long as tequila agave. Cooked over wood in underground "hornos," after which it is crushed and fermented with wild yeast, and distilled twice in copper pot stills.

Sotol:

From Flor del Desierto, in the state of Chihuahua, Mexico. Sotol is a misunderstood plant that grows all over the Chihuahuan desert, as far north as West Texas. While it acts similarly to agave, sotol is not agave at all. It is more closely-related to the artichoke. This plant provides spirits with a massive range in variation and flavor profiles. Our favorite comes from Juarez, Mexico. Cooked and processed almost identically to Rey Campero's Tepextate, it is a fine balance of light smoke and the vegetal qualities that make sotol so interesting.

Raicilla:

From La Venenosa, also in the state of Jalisco, but not technically in the Tequila-growing region. Raicilla is produced from agave cultivated by Maestro Tabarnero Don Rune Peña. Grown at 1,500 feet above sea level, the Agave Maximiliana plants are roasted after harvest in a wood-fired adobe oven, and fermented with wild yeast in 200L vats. It is then distilled in an Arabic-Filipino hybrid still, and uniquely, is bottled after only one distillation.

Eight Row Flight \$22

Ridgemont 1792 Full Proof - Eagle Rare - Old Forester
After tasting barrel after barrel of bourbon, eventually finding the best and most unique, we bought the whole barrel and brought it back to the Heights. Please enjoy these fine whiskeys hand selected by Morgan Weber.

"It's All About The Barrel" Flight \$20

Buffalo Trace - Eagle Rare - Colonel E.H. Taylor Small Batch
Follow this whiskey on its path from white corn whiskey into 10 year old bourbon. All three of these whiskeys use the same traditional bourbon mash bill of mostly corn, finished with some rye and malted barley. Here, we see how the exact same mashbill (recipe) can taste so drastically different, based on where and how long it is aged.

The Rye Flight \$20

Old Forester Rye 100 - Whistle Pig 10 Year - Woodford Rye
Rye whiskey was the prevalent whiskey of the northeastern states, especially Pennsylvania and Maryland, but largely disappeared after Prohibition. In the United States, "rye whiskey" is, by law, made from a mash of at least 51 percent rye.

The Well-Seasoned Whiskey Flight \$22

Angel's Envy Port Cask - Belle Meade 9 Year Sherry Finish - Whistle Pig Old World Bespoke Blend, Reserve 101
Finishing whiskey in barrels that originally housed another spirit is not a new concept. Scotch makers have been doing it successfully for years and American whiskey makers are following right behind. These three selections derive so much of their flavor from their respective barrel finishes. From a bourbon in Port casks, a bourbon in a Sherry cask, and finally a rye aged in Muscat barrels.

Baller Flight \$62.50

Whistle Pig 15 year - Blood Oath Part 1 - Willett 80th Anniversary
Do you want to be a baller? A shot caller? Do you have 20 inch blades on your Impala? If you answered "yes" to any of these questions, this might be the flight for you!

Blind Flight \$21

Think you know your stuff? Put your palate to the test with our blind flight. If you guess all three pours correctly, you get \$5 off your flight! (We change this bad boy once a week, so keep trying your luck.)

Sangrita - \$2.25

Meaning "little blood," sangrita is traditionally served alongside agave spirits to highlight and compliment the complexity of these spirits as well as cleanse the palate between sips.
