

Company Fact Sheet

FULLERTON
ENGINEERING • DESIGN

Fullerton Engineering Consultants, Inc. has been in business for the past 18 years. We are a multi-disciplined engineering and design firm dedicated to the wireless and wireline telecommunications industry. We provide quality designs nationwide for many of the leading wireless carriers, program managers, equipment manufacturers, cable and telecom companies and government agencies. Fullerton has designed over 30,000 sites and hundreds of route miles, and is licensed in all 50 states, the District of Columbia and Puerto Rico.

We continue to see rapid growth due to our excellent reputation which has been built from long-term partnerships with clients, our dedicated and driven staff of talented professionals, and our never wavering commitment to success. Throughout this expansion, we maintain personalized, hands-on relationships with the understanding that each client, project and design has unique needs. We continually strive to exceed expectations.

CORE VALUES

We invest in our people. At Fullerton, we constantly enhance our professional knowledge and skills by staying abreast of the dynamic changes and technological advancements utilized by our clients and the industry.

We believe in partnering with our clients to help ensure their success. We are consistently driven to contribute to our clients' ability to reach their business goals. After all, we succeed when our clients succeed.

We never compromise on our commitment to quality. The core of what we do is ensuring engineering and design integrity. This defines who we are and our commitment to excellence.

We give back to our communities. Through a variety of community engagement programs, we do our small part to make the world a better place.

We are committed to diversity. The richness of our relationships and the success of our pursuits, individually or collectively, are influenced by the extent to which we respect, listen to and appreciate one another irrespective of differences. In fact, diversity, in all of its forms, is the cornerstone of creativity and innovation.

BUSINESS STRATEGY

Our company vision revolves around being recognized by our clients as their best partner in the development, delivery and management of superior engineering and design solutions. We aim to consistently deliver innovative solutions with a commitment to quality and excellence. The vast majority of our work yields from repeat business showing the immense value we offer as a company. One of our short-term goals is to open additional offices across the United States, hiring more talented professionals to better serve our clientele.
