Cancellation and Refund Policy

This policy complies with Idaho State Mandated Policy, and applies to all terminations for any reason, by either party, including student decision, course or program cancellation, or school closure.

1. A student may cancel enrollment by giving written notice to the school. Unless the school has discontinued the program of instruction, the student is financially obligated to the school according to the following:
 - a) If cancellation occurs within five business days of the date of enrollment, and before the commencement of classes, all monies specific to the enrollment agreement shall be refunded.
 - b) If cancellation occurs after five business days of the date of enrollment, and before the commencement of classes, the school may retain only the published registration fee. Such fee shall not exceed 15 percent of the tuition cost, or \$150, whichever is less.
 - c) If withdrawal or termination occurs after the commencement of classes and before completion of 50 percent of the contracted instruction program, the student shall be charged according to the published class schedule. The student shall be entitled to a pro rata refund of the tuition when the amount paid exceeds the charges owed to the school. In addition to the prorated tuition, the school may retain the registration fee, book, kit, uniform and laundry fees, and other legitimate charges owed by the student.
 - d) If withdrawal or termination occurs after completion of 50 percent or more of the program, the student shall be obligated for the tuition charged for the entire program and shall not be entitled to any refund.
 - e) The enrollment agreement shall be signed and dated by both the student and the authorized school official. For cancellation of the enrollment agreement referenced in subsections (1)(a) and (b) of this rule, the "date of enrollment" will be the date that the enrollment agreement is signed by both the student and the school official, whichever is later.

2. Published Class Schedule (for the purpose of calculating tuition charges) means the period of time between the commencement of classes and the student's last date of attendance as offered by the school and scheduled by the student.
3. The term "Pro rata Refund" means a refund of tuition that has been paid for a portion of the program beyond the last recorded date of attendance.
4. When a program is measured in clock hours, the portion of the program for which the student will be charged is determined by dividing the total clock hours into the number of clock hours accrued according to the published class schedule as of the last date of attendance.
5. When a program is measured in credit hours, the portion of the program for which the student will be charged is determined by dividing the total number of weeks into the number of weeks accrued according to the published class schedule as of the last date of attendance.
6. For other measurements of time such as days or weeks, the portion of the enrollment period for which the student will be charged is determined by dividing the total number of days or weeks into the number of days or weeks, accrued according to the published class schedule as of the last date of attendance.
7. The term "tuition cost" means the charges for instruction. "Tuition cost" does not include application fees, registration fees, or other identified program fees and costs.
8. The school shall adopt and publish policies regarding the prorating of user fees.
9. The school shall not charge a withdrawal fee of more than \$25.
10. When a cancellation, withdrawal, termination, or completion occurs, a calculation of all allowable charges under this rule shall be made. If such calculations evidence that the school received total payments greater than its allowable charges:
 - a) Within 40 days after notification of such cancellation, withdrawal, termination, or completion, a written statement showing allowable charges and total payments received shall be delivered to the student by the school, together with a refund equal in amount to monies paid to the school in excess of those allowable charges;
 - b) In the event payments to a student account are derived from federal and/or state tuition assistance program(s), including student loan programs, regulations governing refund notification and awarding within respective program(s) shall prevail in lieu of paragraph (a) of this subsection, but only with respect to the covered portions thereof; and
 - c) In the event payments to a student account are derived from a sponsoring public agency, private agency, or any source other than the student, the statement of charges and payments received together with an appropriate refund described under paragraph (a) of this subsection may be delivered instead to such party(ies) in interest, but only with respect to the covered portions thereof.
11. In case of disabling illness or accident, death in the immediate family, or other circumstances beyond the control of the student that causes the student to leave school, the school shall arrange a prorated tuition settlement that is reasonable and fair to both parties.
12. A school shall be considered in default of the enrollment agreement when a course or program is discontinued or canceled or the school closes prior to completion of contracted services. When a school is in default, student tuition may be refunded by the school on a pro rata basis. The pro rata refund shall be allowed only if the Director determines that the school has made provision for students enrolled at the time of default to complete a comparable program at another institution. The provision for program completion shall be at no additional cost to the student in excess of the original contract with the defaulting school. If the school does not make such provision, a refund of all tuition and fees shall be made by the school to the students.
