

Erysimum capitatum Western Wallflower

BIENNIAL

1 to 2½' high.

Flowers yellow to orange —
March to July.

Native habitat: many diverse
habitats throughout
California and beyond,
but limited to western
North America.

Photograph by Margaret L. Fillius

Full sun to part shade.
Will grow in variety of soils.
Some water may prolong the
flowering season.

Good for border color in front of
evergreen shrubs.
