

Arctostaphylos 'Austin Griffiths'

Austin Griffith's Manzanita

SHRUB - evergreen.

To 10' high, 6' spread but can be kept more compact.

Red bark on sometimes twisted red stems.

Leaves: Glossy green.

Small pink flowers in large clusters, January - February.

Horticulturally selected hybrid between *Arctostaphylos densiflora* 'Sentinel' and *Arctostaphylos* 'Dr Hurd.'

Source plants associated with Coastal Sage Scrub, Chaparral and Central Oak Woodland.

Full sun to part shade.

Will tolerate clay soil.

Water 1 to 2x / month.

Good accent plant or associated with other shrubs.

Great wildlife plant. Attracts butterflies, hummingbirds and other birds.

Fruit is edible and enjoyed by birds and animals.
