The mission of the San Diego County Archaeological Society is to promote public understanding and appreciation of archaeology in general and to encourage the preservation of the cultural resources of San Diego County.

President’s Message
By Shannon Foglia
Welcome to 2017! Please remember to renew your membership. SDCAS is looking forward to an exciting new year. Thank you to our board members from the 2016 year and all of their hard work. We will miss Karen, Dina, and Gabriella and we hope to see them around at future events. The beginning of the new year also brings new board members too. So be on the lookout for bios on Lauren, Mary, and Shelby [page 51]. SDCAS will continue our mission to grow and support archaeology in San Diego County. One of our goals of (Continued on page 4)

SDCAS Newsletter is published bimonthly by the San Diego County Archaeological Society, P.O. Box 81106, San Diego, California 92138. POSTMASTER: Send address changes to San Diego County Archaeological Society, P.O. Box 81106, San Diego, California 92138.

MEETING INFO: The SDCAS Office is located at Los Peñasquitos Ranch House. During the Fall, Winter, and Spring, Monthly Speaker meetings are held on the Fourth Tuesday of each month except December. During the Summer months (June, July, August) General Meetings are held on Saturday evenings, in the courtyard at the Ranch House. See pg. 5 for details of upcoming meetings.

Directions to Ranch House: From I-15 take Mercy Rd. west, turn right (north) onto Black Mountain Rd. and then take the first left into Los Peñasquitos Canyon Preserve. Follow the road all the way to the back (past Canyonside Community Park ball fields and through the partially closed gate), and park either in the small parking area by the barn or along the edge of the dirt entrance road. The area does not have outside lighting after dark, so a flashlight is recommended.

Board Meetings take place on the third Tuesday of each month at 7 pm at the offices of California State Parks’ Southern Service Center in Liberty Station (Barracks 26), 2797 Truxtun Rd., San Diego, CA 92106.

DISCLAIMER: Articles printed in this newsletter are for the information of the members of the Society and do not necessarily represent the views or beliefs of the board members or the Society in general.

Editor’s Message
Happy New Year! And welcome to Volume 45 of the SDCAS Newsletter! This is my 126th issue of the newsletter, which means I’ve been doing this for 21 years. Yikes! That’s hard to believe.

This newsletter wouldn’t be the success it is without input from our membership. Have you ever contributed an article? Everyone has a story to share, why not consider sharing yours? There are several ways you can do so apart from a Letter to the Editor. I’ve listed some of our occasional columns for which you can submit articles:

Tales from the Field - amusing and amazing stories, old and new, relating to your archaeological experiences including fieldwork, lab work, field trips, or travels.

(Continued on page 3)

SUBMISSIONS: Please send any articles, stories, poems, photos, cartoons, etc. to me at the address below. Digital documents are preferred. Any hard-copy item you wish returned must be accompanied by a self-addressed, stamped envelope.

The submission deadline for the next issue is February 24. Please send all items to: Marla.Mealey@parks.ca.gov or to Marla Mealey c/o California State Parks, Southern Service Center, 2797 Truxtun Rd., San Diego, CA 92106.
Editor’s Message
(Continued from page 2)

Finding the Art in Archaeology – poetry, fictional stories, cartoons, drawings, photography, etc. celebrating archaeology through art and artistic expression.

Travelogue – Have you gone on a trip to somewhere archaeological or historical that you think the membership would enjoy hearing about? This can be a written article or simply a photo collage (with captions). It could be a site, a museum, or an event.

And our newest occasional column is called “The Traveling Trowel” (see page 4). It is about interesting places you’ve encountered during your travels. It can be near to home or far away. It does not have to be about archaeology (although if you can tie it in to archaeology, history, cultural history, or anthropology – all the better!), just an interesting place you’ve visited during your travels (for work, school, or vacation) that you think our membership might be interested in. Those hidden gems that are off the beaten path - that most travel guides and tours miss. Have you encountered any place like that? Please share it with us (submission info is on page 2). Our first guest columnist for “The Traveling Trowel” is SDCAS’s First VP, Natalie Brodie, who also came up with the idea and the column title. Thanks Natalie!

Members’ News Corner

Climate Change Project – Field Surveys
Do you want to learn about archaeological field survey? Are you concerned about the potential effects of climate change on archaeological sites? Do you need more survey experience for your resume? Are you looking for some good outdoor exercise? Or do you just want the opportunity to go off-trail and see parts of the coastline that most people miss? Then come join SDCAS for the Coastal Survey project! This project, organized by the Society for California Archaeology (SCA), involves archaeological survey of hundreds of acres of coastal lands in San Diego County to determine potential impacts to archaeological sites due to sea-level rise and erosion.

There is a mandatory training class before the survey day for those who have not yet taken the class. Training classes are held on Fridays before the survey dates at 7pm.

Upcoming Survey Dates:
• January 28
• February 18

Surveys are from 9am to approximately 3pm. Weather and survey conditions may cancel the work so, if you have signed up for a certain day, be sure to check your email before you leave for last minute cancellations.

If you are interested in participating please contact the SDCAS Climate Change Committee at: sdcclimatechangesurvey14@gmail.com. You do not have to be an archaeologist or a member of SDCAS to participate, so tell your family, friends, coworkers, classmates, etc. who might be curious about what archaeologists do.

Climate Change Project – Volunteer Appreciation Event
If you’ve volunteered for the Climate Change Survey, either in the field or in the office, mark your calendars for Saturday, February 25 and save that date for the Climate Change Project’s Volunteer Appreciation Event. We appreciate all the hard work and dedication our volunteers have given to this project and want to thank them with a party. More details to follow regarding time and place, etc.

Ancient Spirits Speak Classes
All Ancient Spirits Speak classes are held at the Barona Cultural Center and Museum (1095 Barona Road, Lakeside, CA 92040). They are open to the public and lunch is included. To reserve your spot, you must call the Barona Cultural Center and Museum (619-443-7003, ext19) and pre-pay for the class or register online at http://www.baronamuseum.com/register.

• Willow Bark Skirts
Saturday, February 4, 10:30am-3:30pm.

Even when a willow tree died, in ancient times it provided a valuable resource. Women traditionally wore skirts made of willow bark, a cool and comfortable garment that protected them from the elements. Learn how to process the bark and create these beautiful skirts from instructor Kristie Orozco (San Pasqual).

• Native Foods
Saturday, March 11, 10:30am-2:30pm.

Spring brings bountiful traditional food resources. Join us as Martha Rodriguez (San Jose de la Zorra) shares her knowledge of Native foods and teaches how to prepare, cook, and eat the different parts of the yucca plant.

Looking for a chance to participate in an archaeological excavation?

There are still places available in Introduction to Archaeological Field Work (ANTH 115) at San Diego City College. This class meets on the City College campus on Wednesdays from 12:45 to 3:40 PM and in the field at the Peñasquitos Adobe on Fridays from 10:00 AM to 4:00 PM. Students learn basic archaeological field techniques by participating in the on-going excavations. The Wednesday meetings include lectures and cataloging of materials recovered the week before. Students earn four units of credit for this class.

This course is part of the Certificate of Performance in Archaeology offered by City College. The program is designed to prepare students to work as archaeological field and lab technicians, and consists of five courses. In addition to the field work class, the program consists of Introduction to Cultural Anthropology (ANTH 103), Introduction to Archaeology (ANTH 107), Introduction to California Indians (ANTH 210), and Archaeological Artifact Analysis (ANTH 120). Introduction to California Indians is also being offered this semester and has seats available.

The Traveling Trowel

[Editor’s Note: This is a new occasional column about interesting places our members have visited during their travels – see page 2 for submission information]

Havilah, California

By Natalie Brodie

On a recent trip for work, I had the pleasure of driving through the tiny town of Havilah in Kern County on the western slope of the southern Sierra Nevada. Havilah is located south of Lake Isabella, along a rugged, two-lane road (Caliente-Bodfish Road) that winds through the foothills. The town has a handful of permanent residents, but was largely uninhabited during my trip on a quiet Tuesday. Havilah was the official Kern County Seat between 1864 and 1874, as it was located along the main wagon route through the Sierra Nevada between Bakersfield and the Kern River Valley. During the mid-1860s, Havilah was the heart of the Clear Creek Mining District and had nine stamp mills, thirteen saloons, and a number of dance halls packed into the one mile-long main street. Havilah was also notorious for stagecoach robberies, and they were so frequent that many of the stage freight companies eventually refused to carry goods through the town. In 1874, Bakersfield was named the new County Seat, and the bustling town of Havilah waned. A fire in the 1920s destroyed many of the buildings, and Havilah quickly became a ghost town. A replica of the first Kern County Courthouse was built in 1966 at the original 1866 location, as well as a replica of Kern County’s first schoolhouse nearby. There are currently wood signs along the main road identifying the locations of the original nineteenth century buildings, and most of the building foundations are easy to see. If you are ever in the area, make a detour through Havilah. You won’t be disappointed.

Havilah Schoolhouse (1867). Notice the metal can lids repairing holes in the wood.

Kern County Courthouse (1866).

Membership Report

SDCAS welcomes our newest members: Kat Davis, Angeles Vianey Riverol Landa, Shannon Farnsworth, and Yanira Moyna. We hope to meet new members at our monthly programs. Please feel free to introduce yourself when notices are being presented before our program begins.

Recently, I conducted a membership survey across three avenues: Arch in the Park, the October Lecture, and a direct email to our members. This survey was done with the intent of determining who attends SDCAS functions and what they would like to see from us. If you have completed this survey, thank you! The information has been invaluable in helping us gauge what we’re doing right and what we can improve upon.

To briefly summarize the results, participants across all three surveys are highly interested in field trips to known archaeological sites, demonstrations (such as tool and basket making), and lectures focused on local archaeology and Southern California history. With this new knowledge, we will be doing our best to satisfy your requests.

As a reminder, unless you identified otherwise, you will receive the newsletter via email. This saves the society printing and postage expenses, since membership dues are basically the only means from which we take in money. For those paying dues by PayPal through our website, please make sure to note that your dues are Renewal and not New Member.

We appreciate your continued support.

Olivia Ross
Membership Chair

(please use “SDCAS” in the subject so it is not mistaken for SPAM)

President’s Message

(Continued from page 1)
the year will be to increase student membership and participation. We will be making more connections at university and college programs, offering volunteer opportunities, and helping with career decisions. Please pass on the SDCAS website to any interested students you may know!

We finished last year’s lecture series with a fabulous talk given by Dr. Phillip de Barros on ironworking in Togo. It was very interesting to learn about a topic and region that I had little knowledge of previously! I really enjoyed seeing the furnaces used for smelting. The next few months hold exciting topics and lectures. Hope to see some new faces at the next lecture!

Archaeology Quote

“Archaeology is not a universal or self-evident activity. In some countries, people debate whether foreign archaeologists are treasure hunters or spies. They cannot imagine that anyone would be interested in going to so much trouble and expense to study the past for its own sake.”

Meet Your New Board Members

President Elect: Lauren Downs
Hello, SDCAS members! I’m very excited to join the board of SDCAS as president-elect. I currently work for AECOM in the downtown San Diego office. I grew up in Rancho Peñasquitos and completed my undergrad at UCSD in Sociocultural Anthropology. I became interested in archaeology after an internship with AECOM as an archaeology field and lab tech (they weren’t hiring any cultural anthropologists at the time). After my internship with AECOM and a brief internship with NOAA in Narragansett, Rhode Island, I moved to Columbia, Missouri and completed my Master’s degree at the University of Missouri. My studies focused on Southwestern pottery and iconography. I have only been practicing archaeology for a few years now, so I am looking forward to getting to know the community of archaeologists and archaeology-lovers here in San Diego. Outside of archaeology, I enjoy dancing at the Rose-Ritchie Academy of Irish Dance and competing (I use the term “competing” loosely) at a trivia night hosted by a friend in Hillcrest every other week. On the weekends I like binge-watching procedural crime dramas with my two cats, Luna and Cat Butler. Hit me up if you’re ever interested in going to a Padres or Gull’s game!

Secretary: Shelby Castells
I am excited to join the SDCAS board as secretary this year and become more involved in San Diego’s archaeological community. I first became interested in anthropology during a required freshman year class at UCSD, which all my friends hated, but I thought was fascinating. I received my BA in Anthropology from UCSD and my MA from SDSU. After 26 years at Affinis, I joined HELIX Environmental Planning in 2014 to start the cultural resources division there. Although I have been a member of SDCAS for many years, it’s been a long time since I served on the Board. I’m looking forward to working with this super group of people and being able to contribute to the success of such a great organization.

Treasurer: Mary Robbins-Wade
I began working in archaeology as a student in the Mesa College field school at the San Diego Presidio and later on San Clemente Island. I received a BA in Anthropology from UC Santa Barbara and an MA in Anthropology from SDSU. After 26 years at Affinis, I joined HELIX Environmental Planning in 2014 to start the cultural resources division there. Although I have been a member of SDCAS for many years, it’s been a long time since I served on the Board. I’m looking forward to working with this super group of people and being able to contribute to the success of such a great organization.

For the other SDCAS Board members, their bios can be found in the Newsletter issues listed below. Most of these can be found on SDCAS’s website:

Upcoming SDCAS Meetings

SDCAS Monthly Meetings are free and open to the public
January 24 (Fourth Tuesday Meeting), 7:30 p.m. Los Peñasquitos (see page 2 for directions)

Title: Peñasquitos Adobe and the City College Archaeology Program: An Update on the Research and the Students
Presenter: Dr. Tim Gross

For over 20 years students from San Diego City College have been excavating at the Peñasquitos Adobe as part of the college’s anthropology curriculum. The excavations are an integral part of the Certificate of Performance in Archaeology program at City which is designed to prepare students to work as archaeological field and lab crew. This presentation will describe the program and discuss some of the history of the work done by City College students, and it will include information from the latest field season, spring 2016, as well as some of the analytical results from the recently-completed Artifact Analysis class. Some of the success stories of the program will also be discussed.

(Continued on page 6)
Upcoming SDCAS Meetings
(Continued from page 5)

February 28 (Fourth Tuesday Meeting), 7:30 p.m.
Los Peñasquitos (see page 2 for directions)

Title: Photogrammetry, Provenance, and Preservation of Tangible Heritage in the Khangai Mountains, Mongolia

Presenter: Nicholas Case

This study presents results from the photogrammetric documentation of rock art in western Mongolia. Unlike many traditional rock-art documentation techniques practiced in Mongolia, photogrammetry presents unique advantages for the study and preservation of cultural heritage. These include the production of a digital 3D model, preservation of color and original lighting conditions, ease of documentation, and the inclusion of contextual information such as surrounding features, panel orientation, and geologic context. Using photogrammetric techniques, we documented ten late Bronze Age standing stones and three separate rock art localities in the Khangai Mountains of Bayankhongor Province, western Mongolia. By taking images at different times of day, we were able to produce high-visibility images of “deer stone” stelae, obviating the need for chalk or other substances which can damage the stone surface. By integrating our data with aerial photography, we produced high-resolution digital maps of our study sites. Results suggest that 3D photogrammetry may be profitably integrated into future research of late Bronze Age monuments in Central Asia.

Nicholas Case is a recent graduate from San Diego State University with a B.A. in Anthropology. This summer he attended the Northern Mongolia Archaeology Project field school where he first gained experience using photogrammetry techniques. Some of his past experience includes: lab analysis as an intern for Dr. Todd Braje in the Environmental Anthropology and Archaeology Lab at SDSU, over 90 hours of volunteering at the Climate Change Survey, and is the recently-reellected 2nd-Vice President of SDCAS. He currently works for Atkins Global as an Archaeological Field Technician.

Members’ News Corner
(Continued from page 3)

The Congress of History of San Diego and Imperial Counties 52nd Annual History Conference: San Diego and the Great War (1914-1919)

The Great War, from a local perspective.

Two-day Conference, March 3 & 4, 2017, 8:30 a.m. – 4:30 p.m. at the Veterans Museum at Balboa Park (2115 Park Blvd.). Free Off-Street Parking.

The start of our modern world can be traced to the outcomes from World War I. Discover what our region played in the conflict. “Cease fire” was in 1918. Local impacts lasted to 1919 and beyond.

Cost: $35 • ($25 seniors, $15 students & active-duty military). Children over 12 welcome to attend.

More information: www.congressofhistory.org

February is Museum Month

Free Museum Month passes can be picked up at any Macy’s store in San Diego, Imperial Valley, and Temecula beginning February 1. The pass entitles you to half-price admission to many local museums. The pass is good for up to four people for the month of February 2017.

Participating museums include:
• Adobe Chapel
• Borrego Cultural Center & Museum
• Bonita Museum & Cultural Center
• California Surf Museum
• Coronado Museum of History & Art
• Flying Leatherneck Aviation Museum
• Gaslamp Museum at the Davis-Horton House
• Heritage of the Americas Museum
• Junipero Serra Museum
• La Jolla Historical Society
• Maritime Museum of San Diego
• Marston House Museum & Gardens
• Mingei International Museum
• San Diego Air & Space Museum
• San Diego Archeological Center
• San Diego Automotive Museum
• San Diego Chinese Historical Museum
• San Diego History Center
• USS Midway Museum
• Veterans Museum at Balboa Park
• Warner-Carrillo Ranch House & Museum
• Whaley House Museum
• Women's Museum of California

More information and additional museums are on the San Diego Museum Council’s website http://www.sandiegomuseumcouncil.org/museum-month

National Park Service’s 2017 Archaeological Prospection Workshop

The National Park Service’s 2017 workshop on archaeological prospection techniques entitled “Current Archaeological Prospection Advances for Non-destructive Investigations of the Pea Ridge Civil War Battlefield” will be held May 15–19, 2017, at the Pea Ridge National Military Park in Benton County, Arkansas. Lodging will be in Rogers, Arkansas, at a motel to be determined. The lectures will be at a meeting room in Rogers, Arkansas, at a place to be determined. The field exercises will take place at the Pea Ridge National Military Park.

This will be the twenty-seventh year of the workshop dedicated to the use of geophysical, aerial photography, and other remote sensing methods as they apply to the identification, evaluation, conservation, and protection of archaeological resources across this Nation. The workshop will present lectures on the theory of operation, methodology, processing, and interpretation with on-hands use of the equipment in the field.

There is a registration charge of $475.00. Application forms are available on the Midwest Archeological Center’s webpage at http://www.nps.gov/mwac/. Payment may be made by credit card through the Friends of NCPTT for non-government employees. Federal employees may pay through a training form (SF-182) sent to the Midwest Archeological Center or by credit card through the Friends of NCPTT (NCPTT webpage announcement). For further information, please contact Steven L. DeVore, Archeologist, National Park Service, Midwest Archeological Center, Federal Building, Room 447-M100 Centennial Mall North, Lincoln, Nebraska 68508-3873: tel: (402) 437-5392, ext. 141; fax: (402) 437-5098; email: steve_de_vore@nps.gov

PCAS Lecture: Swordfish Cave

Pacific Coast Archaeological Society Lecture meetings are held at the Irvine Ranch Water District Community Room, 15500 Sand Canyon Avenue (between the I-5 and I-405) in Irvine, on the second Thursday of each month, at 7:30 pm. Meetings are free and open to the public.

February 9, 2017, 7:30pm, Speaker: Clayton Lebow

Swordfish Cave has long drawn in visitors with its alluring rock art including a realistic rendition of its namesake swordfish. However, viewers were inadvertently damaging the artwork because space inside the cave was very limited. As a conservation measure, Vandenberg Air Force Base asked Applied EarthWorks, Inc. to create a viewing area by excavating a block at the mouth of the cave. These excavations revealed a substantial archaeological deposit.

In this lecture, Clay Lebow will describe the archaeological excavations and the necessary measures taken to create the viewing area. Data from the site demonstrate that rock art on the Central Coast is much older than previously thought. Other data provide fascinating and unusual insights into the people that once used the cave and created the rock art.

Clay Lebow (MA) is a Registered Professional Archaeologist with more than 35 years of experience in the western United States, including 20 years along California’s Central Coast. He is a Vice President for Applied EarthWorks, Inc. He is responsible for operations in the Lompoc office. From that office he has directed more than 170 archaeological investigations on Vandenberg Air Force Base, including a multi-year effort at Swordfish Cave.

Archaeology at Anza-Borrego Desert State Park

Date: Friday, January 27, 2017 - 11:00am

Archaeology at Anza-Borrego Desert State Park: A Cultural Landscape. By Robin Connors, Colorado Desert District Archaeologist

Friday, January 27, 2017 at the ABDSP Visitor Center (West end of Palm Canyon Drive, Borrego Springs, CA 92004). Volunteers, staff and the public are invited

Prehistoric archaeological resources spread across the environmental panorama of the park. What we see as a dry, desolate setting is actually a landscape of resources which when exploited helped to shape the cultures of the people who occupy that landscape. Join us to explore the resources of the Park’s Cultural Preserves, the artifacts and features which describe the people who lived and thrived here. A short business meeting will follow.

AIA Lecture: The Ancient Athenian Naval Bases in the Piraeus – The Backbone of the World’s First Democracy

February 17, 2017, 7:15pm to 9:00pm, at San Diego State University, Arts & Letters 101.

Professor Bjørn Lovén (Research Associate with the Saxo Institute at the University of Copenhagen and AIA Kress Lecturer for 2016/2017) will present, “The Ancient Athenian Naval Bases in the Piraeus – The Backbone of the World’s First Democracy.”

Athens in the 5th and 4th century BC was preeminent because of her naval power, and with the navy’s importance came that of her harbor city, the Piraeus, where naval bases housed the hundreds of triremes that served as the primary arm of Athenian might. The architectural glories of the Acropolis stood in second place to her naval bases. …

The Zea Harbour Project, digging on land and underwater in 2002 to 2012, has uncovered extensive archaeological remains of the Athenian naval facilities. This lecture will explore a complex archaeological puzzle and show how the remains can be connected to the dawn of Athenian power in the late 6th and early 5th century BC; to the young democracy at the time of the Persian Wars; to the age of empire when Athens ruled the eastern Mediterranean; and to the waning years of the 4th century BC when Athens stood in the shadow of Macedonia.
