"Do all the good you can,  
By all the means you can,  
In all the ways you can,  
In all the places you can,  
At all the times you can,  
To all the people you can,  
As long as ever you can."

*John Wesley*

THE GRATITUDE REPORT is designed to give a glimpse into Truman Medical Centers' (TMC) daily routine – though what happens within our system of hospitals and clinics is anything but.

Dear Friends,

We are grateful for you.

Truman Medical Centers (TMC) simply could not care for our 100,000+ patients each year without your help. You partner with us to ensure our patients receive state of the art, high quality medical care. Even though you may never meet those in our care, please know every day our surgeons, physicians, nurses and therapists hear stories of gratitude.

So in this year's report, we invite you to get a sense of a day in the life of TMC. You will meet staff members who are passionately committed to their work and tireless in their efforts to ensure our patients and their families are

welcomed, respected, and cared for. You will hear from patients who wouldn't be where they are today without Truman, without you.

Moment by moment, each day is filled with kindness, compassion and expertise. Together, with your support, we are leading the way to a healthy and vibrant community.

With gratitude,

Karlyn Wilkins, Executive Director  
TMC Charitable Foundation

Dear Friends:

Each day at Truman Medical Centers (TMC) is filled with big and small moments that make our community better, stronger, healthier. From finishing a successful surgery, to helping deliver a baby into the world, to offering a gentle smile, or just being a compassionate listener.

We're proud to highlight in this Gratitude Report the exceptional moments of care and compassion our donors have made possible. Our relationships with these individuals, foundations and corporations make TMC a better place to receive care, and our community a better place to live.

Many thanks for your continued support.

A handwritten signature in black ink that reads "Michelle deSilva". The script is fluid and cursive.

Michelle deSilva, Chair  
TMC Charitable Foundation Board of Directors

**OUR STAFF IS DEVOTED** to making each patient's experience one that they would expect for their own family, a standard of care that defines itself in every thought and action.

Charlie Shields, President and CEO  
Truman Medical Centers

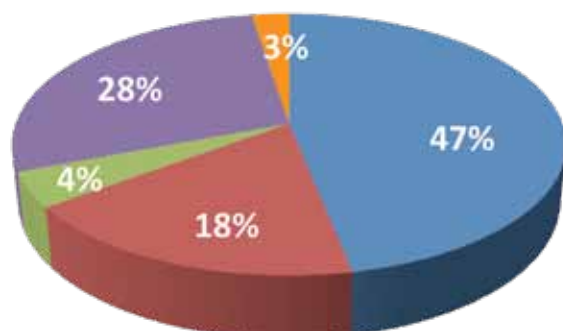

## FINANCIAL REVIEW

July 1, 2013 to June 30, 2014

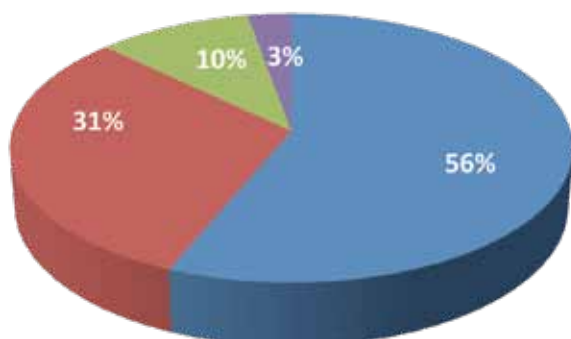

### Charitable Contributions and Revenue FY2014

- Foundations - \$5,471,763
- Corporations - \$2,098,538
- Individuals - \$506,464
- Property Gifts - \$3,300,000
- Investment Income - \$297,000
- Total - \$11,673,738**

---

### Expenses FY2014

- Grants to TMC - \$6,040,198
- Property Gifted to TMC - \$3,300,000
- Administration - \$1,079,119
- Events and Fundraising - \$304,102
- Total - \$10,723,419**

\*Projected excess is expended over time as pledges are received by TMC Charitable Foundation and later remitted to Truman Medical Centers for patient programs, services, and medical equipment.

## MISSION

The TMC Charitable Foundation's mission is to transform the health and wellness of our community through philanthropy by raising funds and friends for the benefit of Truman Medical Centers.

**GRATITUDE** is always the underlying theme in our annual report. Our relationships with caring community partners are the lifeblood of our Mission. We're not just purchasing equipment or funding programs: together we're truly helping people and changing lives.

8:20 a.m.

The doctor will see you now.

At TMC, providing the best patient care means treating the whole person, not just a disease. It means not only finding the best treatment plan for each patient, but also working to discover why he or she is sick. And it means looking at the long-term effects of treatment, and taking every possible precaution and providing every opportunity to ensure each patient enjoys the best quality of life.

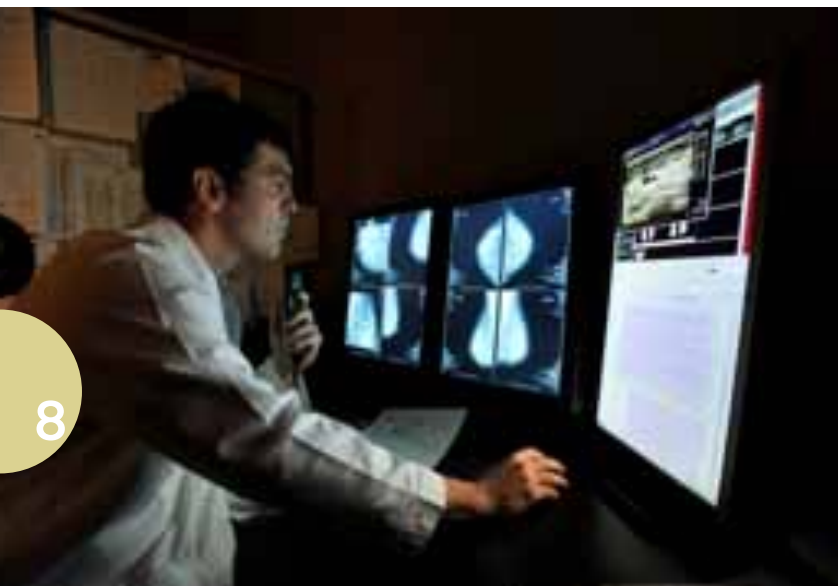

*Hematologist Sheshadri Madusudhana, M.D., cares for a patient at TMC Hospital Hill.*

Picture this:

TMC in-patient care and specialty clinics rely on state-of-the-art imagery

With 24/7 care, TMC's high volume of patients requires up-to-date, accurate, and reliable medical imaging to support inpatient and ambulatory patients. As Kansas City's downtown hospital, TMC admits over 19,000 patients and handles more than 329,000 medical outpatient visits per year. Between two departments, Radiology Services and the Orthopaedics Clinic, more than 30,000 outpatient and inpatient x-rays are provided at TMC Hospital Hill. Generous donor funding helps TMC replace and update medical imaging equipment to ensure state-of-the-art care.

## GENEROUS DONOR FUNDING

this year provided vital replacements and enhancements to TMC's radiology systems.

9:38 a.m.

"No se preocupe, usted va a estar bien."

"Don't worry, you're going to be fine."

*The Level I Trauma team at TMC Hospital Hill.*

**All hands on deck:** The Level I Trauma team at Truman Medical Center Hospital Hill tends to more than 101,000 patient visits each year.

Dr. Douglas Geehan, a board certified trauma surgeon at TMC Hospital Hill knows first-hand the significance of an accessible Level I Trauma Center in the heart of the community. "This is one of the busiest ER's in the city," states Dr. Geehan.

Quality benchmarks ensure TMC is doing the best job possible in caring for our injured. That brings a measure of comfort to residents in neighboring Hospital Hill areas, but also peace of mind to anyone who happens to be within the TMC vicinity when a critical injury occurs.

Physicians in specialties ranging from neurosurgery to OB/GYN are on standby, and nursing teams are ready in the operating room and critical care unit as well.

"Our community is fortunate to have Truman's team of exceptional trauma physicians and nurses," said Dr. Geehan.

## LEGACY OF CARING

TMC provides the highest quality of care with less revenue than other hospital systems in the Kansas City area. With generous community support, TMC's legacy of caring continues, in providing state-of-the-art, essential care through innovative ideas and a commitment to excellence.

10:25 a.m.

"For as long as I have life,  
I will live with hope."

Hope: always, everywhere, and close to home. The Truman hospital system is critically important to low-income and underserved patients who generally present themselves for cancer treatment at later stages. An essential component of our vision is to ensure that patients have access to the newest and most effective therapies.

As a partner in joint research initiatives through the Midwest Cancer Alliance (MCA), TMC is actively engaged in the discovery process, collaborating with the University of Kansas Cancer Center to provide important access to distinctive patient populations. This helps the Alliance conduct clinical trials that improve cancer research and care throughout the region.

*Pharmacist Stephen Smith prepares  
medications at the on-site pharmacy  
in the Richard and Annette Bloch  
Cancer Center at TMC.*

The on-site Appearance Center offers patients a selection of new wigs, prostheses, and lymphedema garments. Generously funded by ArtBra KC, the items renew hope and dignity in patients coping with the effects of cancer.

*Patient navigator Tina Shropshire assists patients in the Appearance Center.*

Annette Bloch and  
CEO Charlie Shields

## A CIRCLE OF CARING:

In February 2014, the Richard and Annette Bloch Cancer Center opened at Truman Medical Center Hospital Hill. The Center, funded 100% by donor contributions, features an array of patient-centered amenities that encircle our patients in care. Features include an on-site pharmacy, nutrition café, a research library, and wig and prostheses boutique.

Triple the size of the former facility, patients see their doctors, consult with nurse navigators, and receive chemotherapy and other infusion medications, all with their loved ones close by.

11:00 a.m.

New parts. New beginnings.

Truman Medical Center Lakewood becomes first in Kansas City to achieve certification for hip and knee joint replacement.

TMC Lakewood has earned the Joint Commission's Gold Seal of Approval® for its Hip and Knee Joint Replacement Programs.

Opting for joint replacement is often a key factor for TMC patients faced with leading a normal life or putting up with a debilitating condition.

TMC Lakewood's Orthopaedic services are provided through the practice of Thomas McCormack, M.D., the first orthopaedic service in the Kansas City Metro area to be certified by The Joint Commission for full joint replacement of knees and hips.

Located in the Lakewood Medical Pavilion, Dr. McCormack has a special interest in gender specific total knee replacements, total hip replacements, and unicompartmental (partial) knee replacements.

*Orthopaedic surgeon Thomas McCormack, M.D., at TMC Lakewood.*

With TMC Lakewood earning Joint Commission certification, the first in the Kansas City area for hip and knee joint replacement, it shows the significant investment in quality and excellence of care our orthopaedics program makes.

"This is just another example of how TMC strives to provide top quality care, in a state-of-the-art environment with excellent clinical outcomes."

*TMC orthopaedic surgeon  
Thomas McCormack, MD*

## TMC Grateful Patient

Business, philanthropy, and personal motivation fuel Don Kahan's passion for community and life.

Don Kahan is a long-time friend to Truman Medical Centers (TMC), sharing time, leadership, and generous charitable gifts over many years. After settling in Lee's Summit in 1965, he spent the next 50 years building his successful Don Kahan vehicle dealerships.

Recently, he came under the care of renowned orthopaedic specialist Thomas McCormack, M.D. at TMC Lakewood.

"After Dr. McCormack worked on my knee, I had to get to work rehabilitating it, as well as my arm because of another issue I was having," he said. "My rehabilitative care at TMC Lakewood was stellar," Kahan said. On a blustery winter morning, between calls to help a local social service agency replace a broken down van, Kahan moves from his well-worn desk chair to a stationary bike positioned in one corner of his office.

"This is just what the good doctor ordered," he said. After his cycle routine, Kahan switches over to a pulley system rigged behind his door. "This is what my therapists at TMC Lakewood taught me," he said, demonstrating the arm and shoulder exercises that promote mobility and circulation.

"Truman does so much good in our community. I've always appreciated the breadth of services and top-notch care. Now, as a patient, I appreciate Truman even more," Kahan said.

11:50 a.m.  
Open Wide.

There's more to a healthy smile than pearly white teeth. With generous funding from individuals, foundations, and corporations, the staff aboard TMC Lakewood's Dental Mobile provide dentistry on-site at various Independence, Missouri elementary schools, teaching 5,000 students and their families about basic oral hygiene and healthy eating.

More than 800 low-income students  
have tooth sealants applied during  
their treatment in TMC's Dental Mobile.  
Many with severe dental problems are  
referred to partner agencies  
for advanced care.

*Dr. Paula Livingston examines a young patient  
aboard the TMC Dental Mobile.*

## 12:45 p.m. Prescription for Understanding: Health Literacy at TMC

A learning disability can present serious side-effects when it comes to taking medications. Reading and understanding the words and symbols on prescription labels is critical. At TMC, more than 1,500 patients benefitted last year from a health literacy program at TMC funded by the Healthcare Foundation of Greater Kansas City.

Trained to use the "teach back" method, our care providers educate patients and/or parents of patients on medication instructions prior to leaving the clinic or hospital. A backpack and bright wristband serve as reminders for patients to bring all medications on their next visit to review correct usage, timing, and potential side effects.

1:50 p.m.  
Chemo begins at two o' clock...  
Friday night football at seven.

### TMC Grateful Patient

Devoted mom and studio engineer MiMi French is grateful for TMC's exceptional care and support during her journey with cancer.

Mimi French says the greatest accomplishment in her journey with Stage 3C breast cancer was making it to every one of her 14-year-old son's football games at Center High School in Kansas City. Not even the rigors of chemotherapy at the Richard and Annette Bloch Cancer Center at TMC, nor the dozens of radiation treatments that followed, could keep MiMi down.

During the most intensive parts of her treatment, Mimi had to scale back her work hours as a studio engineer for a local radio station. Because of TMC's mission to care for all regardless of a patient's ability to pay for services, Mimi gratefully received assistance from a generous foundation that supports TMC breast cancer patients.

"I am so humbled by the support I've had along the way: from my doctors and nurses at Truman, to my co-workers and friends...I am truly blessed."

11:35 p.m.

It's a girl!

### TMC Grateful Patients:

Kim and Nathan Baer celebrate victories great and small with baby Elizabeth.

While Kim and Nathan Baer waited a lifetime for their little girl, they were not anticipating her early arrival on September 11. Coming into the world weighing just 2 lbs. 12 oz., baby Elizabeth's due date was not expected until Thanksgiving.

For 55 days, the couple stayed at their daughter's side in TMC's Level III Neonatal Intensive Care Unit (NICU) at Hospital Hill. Experiencing moments of intense vulnerability watching their tiny girl endure setbacks common in premature babies, they would come to celebrate little victories as Elizabeth rallied through, growing bigger and stronger with each day.

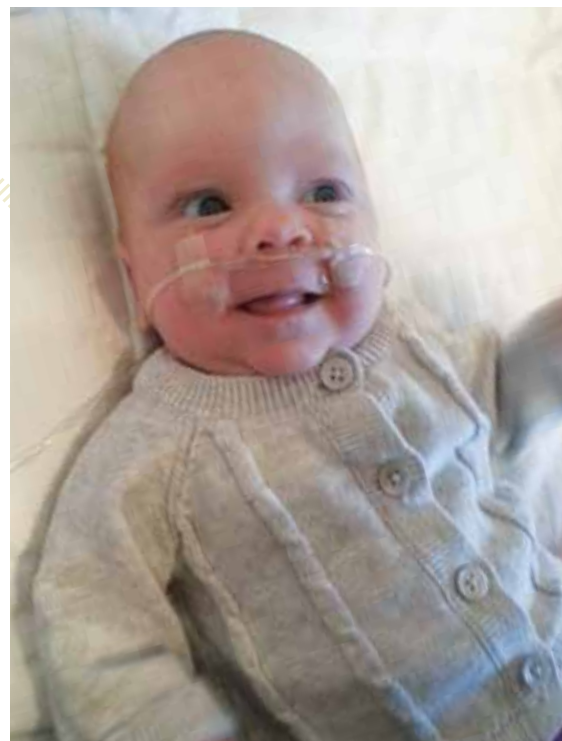

"For the nurses in Truman's NICU, we could tell that caring for these babies is more than a job. It is their ministry," said Kim.

At one point, the couple received news that was difficult and frightening to accept about Elizabeth's condition. Kim said all the while, two compassionate nurses hovered nearby before swooping in to calm their worst fears and talk through the situation. "They shared both good and not-so-good news, tears, and hugs with us. They gave us hope, confidence, and a wonderful peace of mind."

"God does amazing work, and for us He did it through the wonderful physicians and nurses at Truman," said Kim, "and today we have a perfect and healthy daughter to cherish."

### RESEARCH TODAY. HEALTHY TOMORROWS.

The Level III Neonatal Care Unit (NICU) at Truman Medical Centers is one of 18 centers nationwide funded by the National Institutes of Health (NIH), working in collaboration with Children's Mercy Hospital and the University of Missouri-Kansas City (UMKC) to perform clinical research to improve outcomes of both term and preterm high-risk infants.

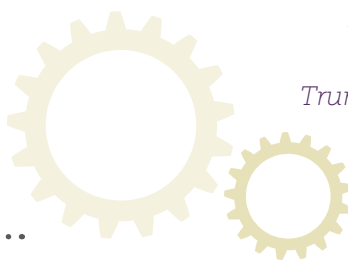

## Truman Support Center

TMC Charitable Foundation was the beneficiary of a beautiful 8-story office building in Kansas City North, a gift of ZDG Investments, LP, a development company comprised of principals from Zimmer Companies, Inc. and J.E. Dunn Construction. The \$3.3 million commercial property is home to several TMC departments including its information technology and call center operations.

*Karlyn Wilkins, Hugh Zimmer, Peggy Dunn, John Bluford, Bob Dunn, Bill Dunn Sr., and Ellen Zimmer Darling at the Truman Support Center at Tiffany Springs.*

## TruLove

A fun-filled tennis weekend raised funds for an Infant Resuscitation System for the Neonatal Intensive Care Unit at TMC Hospital Hill. Elle and Emma Razi, goddaughters of TMC Radiology Chair Dr. Larry Ricci, and members of Elite Squad Tennis Club in Overland Park, KS, organized the event.

*Emma Razi, 9, and Elle Razi, 8, are two of the young tennis players at Elite Squad Tennis Club who have inspired the TruLove tennis event to benefit babies born at TMC.*

## Fashion For A Cause

Local boutiques and designers grace the **Fashion For A Cause** runway with styles ranging from classic, to edgy, to sporty.

*Fashion For A Cause Honorary Chairs Darcy Howe and Merrily Jackson (right and left) with international supermodel and humanitarian Petra Nemcova, the host for the event which benefits Women's Health programs at TMC.*

## Eat Your Art Out!

A Benefit for TMC Behavioral Health

*True blue friends of Truman Medical Centers, Rose Bryant and Jo Ann Field, chairs of **Eat Your Art Out**, a benefit for TMC Behavioral Health.*

*Charlie and Brenda Shields, Steve Roling, Dr. Valerie Chow, and the Hon. Jon Gray enjoyed the TMC camaraderie at **Eat Your Art Out**. Roling was honored for his longtime leadership and advocacy for mental health awareness in the Kansas City community.*

## Golf Baby Golf!

A full slate of golfers and scores of volunteers ensured a successful **Golf Baby Golf!** tournament at beautiful WinterStone Golf Course. The event earned honors this year as one of Kansas City's Top Ten charity golf events, netting more than \$142,000 for babies and families cared for at the TMC Lakewood Family Birthplace.

## At the Market:

### Fresh Changes in Lifestyle

Shoppers at TMC's Healthy Harvest Mobile Market or the Healthy Harvest Markets at TMC campuses are often greeted by TMC registered dieticians, chefs, volunteers, or other TMC staff who share the benefits of fruits and vegetables in a healthy diet. Among the vine-ripened tomatoes and juicy plums are educational materials, recipe cards, and tips for incorporating fresh produce in everyday meals including ethnic dishes.

*An extra helping of knowledge: With support from generous charitable foundations, TMC is empowering neighbors in the city's urban core with the confidence, curiosity, and knowledge to add nutritious foods in their family's lifestyles in healthy and fun ways.*

"You must give some time to your fellow men.

Even if it's a little thing, do something for others

- something for which you get no pay but the privilege of doing it."

*Albert Schweitzer*

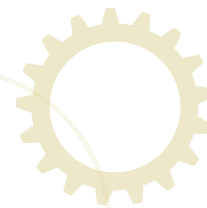

## Touchstone Society

The Touchstone Society honors lifetime giving by individuals, businesses, foundations and organizations to the Truman Medical Center Charitable Foundation. Every Society member has generously provided cumulative cash gifts of \$25,000 or more.

## William Volker Heritage Society

Members of the William Volker Heritage Society help to ensure Truman Medical Centers' future growth by including the TMC Charitable Foundation in their estate plans. William Volker's philanthropy enhanced hospitals, schools and the Kansas City community in the early 20th century. The TMC Charitable Foundation was established in 1979 through a gift from his estate.

"If we have the opportunity to be generous with our hearts,  
ourselves, we have no idea of the depth and breadth of love's reach."

*Margaret Cho*

## Altruist Society

The Altruist Society recognizes TMC-affiliated physicians who support Truman Medical Centers through their personal philanthropy. The Society includes current and former TMC physicians, as well as those who completed their residency at TMC or were affiliated through the UMKC School of Medicine. Current TMC physicians are denoted with an asterisk (\*). The Society was formed in 2011.

## Isabella Brandon Society

The Isabella Brandon Society was established in 2012 to recognize those nurses affiliated with Truman Medical Centers who give philanthropically to the TMC Charitable Foundation. Members noted with an asterisk (\*) represent graduates of the General Hospitals Schools of Nursing. The first graduate of the original school was Isabella Brandon in 1895.
