

# SILHOUETTE LIGHT BOLLARD

42" Silhouette shown with rotary brushed stainless steel body, rotary brushed stainless steel optional shroud with custom perforated pattern, clear frosted polycarbonate lens, and white 4500k lighting

The Silhouette is a sleek, applicable lighting solution suited to meet the high-end design challenges of Architects, Urban Planners, and Landscape Architects. With its high level of personalization the Silhouette is the perfect solution for upscale urban areas. Offered in an array of sizes, powdercoat colors, textures, and materials allows the Silhouette to be integrated into any environment. Advertise your company or business, attract attention to your institution or park, or simply create unity in your city or town with our customizable shroud. We also offer several perforated patterns, call us to discuss our current offerings. Constructed of durable steel or stainless steel, the Silhouette stands up to changing weather conditions and offers a maintenance-free operation. All of our lighting components are UL listed so you can count on their quality; you can also be assured of energy efficiency with our choice of long-life LEDs as a light source. All of our products are environmentally friendly by nature; the main structural content of this bollard contains a recycled content of 95%-100%. This product can also be easily recycled at the end of its life and is manufactured in an environmentally conscious process.

## installation & maintenance

Units come preassembled and ready for installation. Tamper-proof stainless steel mounting hardware is provided to securely anchor product in place. Powdercoated surfaces can be cleaned using a clean, soft, non-abrasive cloth with warm water and mild detergent. Other commercially available all-purpose cleaners such as Simple Green® can be used to clean and protect all surfaces. Denatured alcohol and a clean, soft, non-abrasive cloth can be used to clean oils left on all stainless steel surfaces. Commonly available cleaners such as Weiman®, Zep®, 3M®, Simple Green®, and other stainless steel cleaners can also be used to clean and protect all stainless steel surfaces. Avoid abrasive cleaners and cleaners containing chlorine on all surfaces.

specifications subject to change without notice

These are the standard material and finishing options we offer for customization. Every component can be customized to suit your vision. The modularity lends itself to multiple and exciting design configurations that can be tailored to an individual's taste. For options such as powdercoating, give us a call - we have an array of colors to choose from. If you have a unique finish or exotic material in mind for a certain component that we do not list, let us know and we may be able to implement it into your design.
