

Limited Permit X-Ray Technician Program

Responsibilities of a Limited Permit X-Ray Technician

Limited Permit X-Ray Technicians produce radiographs of various parts of a patient's body for analysis by a doctor or radiologist. Career Care Institute's Limited Permit X-Ray Technician program will prepare the graduate to take the California State Examination in three limited permit categories: Chest, Extremities, and Torso-Skeletal. The student will also receive training in vitals, ancillary medical procedures, and receive a certificate of instruction in venipuncture, injections, and electrocardiograms. Limited permit radiographers are trained to perform procedures commonly needed in outpatient clinics, physicians' offices, ambulatory care centers, urgent care facilities, and some imaging centers.

<p><u>Length of Program</u></p> <p>Months: 10-11</p> <p>Weeks: 40</p> <p>Hours: 900</p> <p>CIP Code: 51.0911</p>	<p><u>Class Schedule</u></p> <p>Theory: Monday through Thursday from 9:00 AM to 1:30 PM</p> <p><u>OR</u></p> <p>Monday through Thursday from 5:00 PM to 9:30 PM</p> <p>*Externship: Monday through Friday from 8:00 AM to 5:00 PM <u>OR</u> 9:00 AM to 6:00 PM.</p>
--	--

NOTE: *Hours vary depending on Externship site. (372 hours are mandatory to receive certificate.) Students attending evening classes must be available to complete externship training during regular business hours. CCI cannot guarantee that students will be placed in a clinical site during evening hours. Additionally, LPXT students must complete a minimum of 34 hours per week of clinical training.

Prerequisites

The following are required before the first day of class:

- High school diploma or GED equivalent
- Passing score on the pre-entrance exam
- Negative TB result
- Orientation

Testing Dates and Requirements

- Testing times are available by appointment only!
- \$40 CASH ONLY fee is required on the testing date.
- The testing process will take about 1 hour to 1 ½ hours.
- The entrance test is valid for one year.

Graduation

Upon graduation, the graduate will be awarded a Certificate of Completion in Limited Permit X-Ray Technology in Chest, Extremities and Torso-Skeletal. Additionally, students completing the Basic Back Office (BBO) skills training will receive certification in Venipuncture, Injections, and EKG. The graduate will then be eligible to take the State Limited X-Ray Technology Examinations for Core, Chest, Extremities, and Torso-skeletal.

NOTE: The graduate must pass the California State Examination to receive a position as a Limited Permit X-ray Technician. Additionally, graduates will receive a review course during their externship to help prepare for the California State Examination.

Main Campus • 43770 15th Street West, Suite 115 • Lancaster, California 93534 • phone: (661) 942-6204 • fax: (661) 942-8130
 Branch Campus • 2151 Alessandro Drive, Suite 150 • Ventura, California 93001 • phone: (805) 477-0660 • fax: (805) 477-0659
 Branch Campus • 22500 Town Circle, Suite 2205 • Moreno Valley, California 92553 • phone: (951) 214-6446 • fax: (951) 214-6440

Course Summary

Course: Basic Back Office (BBO) Skills
Clock Hours: 96

Description: This course covers medical terminology word parts and abbreviations. The student will learn how to take a patient history, height/weight, temperature, pulse, respirations, and blood pressure. Student lab activities will include vital signs using various methods, injections, venipuncture, EKG, and urinalysis.

Course: LPXT1 & LPXT2
Clock Hours: 432

Description: These modules are an introduction to limited radiography, pertinent terminology, medical ethics, equipment operation, radiological physics, film critique, mathematics, and exposure techniques for the limited radiographer, digital radiography, and radiation protection.

Student will also observe procedures and be required to perform procedures in the X-ray laboratory. Modules will also cover radiographic anatomy and physiology, radiography positioning of the chest, extremities, torso skeletal, pediatric and geriatric patients.

Course: LPXT3 & Review Course
Clock Hours: 372

Description: The student will be required to complete minimum amount of radiographic procedures: 50 Chest, 200 Torso skeletal X-rays, 50 lower extremities, and 50 upper extremities. The externship period is a minimum total of 336 externship hours (minimum of 34 hours per week). Externship will be completed after didactic training.

The student may complete externship at their current employer, if radiographic services are available. Please note that current employers must first be approved by the CDPH/RHB to accept students. CCI can provide the student and employer with the information needed to do so. If not, the student must cooperate with the Externship Office for placement at another facility.

In addition, once completed with externship, students will be required to attend the LPXT4 Review Course. The student will receive lectures and be given assignments to facilitate their review on all components of the Limited Permit X-Ray Technician Program. The LPXT4 Review Course is a total of 36 hours.

Licensure

The Graduate must pass the California State Examination to receive a permit as a Limited Permit X-Ray Technician. The graduate then can accept a position as a Limited Permit X-Ray Technician. Graduates will receive a refresher course during their externship to help prepare them for the California State Examination. Additionally, graduates will have the opportunity to take the National Certified Medical Assistant examination, which makes them Certified Medical Assistants if they pass the exam.

Career Care Institute is accredited by the Commission of the Council on Occupational Education (COE).
