Monday's Action on Automatic Voter Registration: Will You Join Us?

https://mailchi.mp/clccrul.org/mondays-action-on-automatic-voter-registration-will-you-join-us
Friends,

With your support, Illinois became the 10th state to enact Automatic Voter Registration into law this August - potentially increasing access for over one million voters!

**But the fight isn't over yet.**

Without public pressure, we know too well that AVR could stall and languish due to budget and administrative holdups. AVR has already experienced some delays. Moreover, AVR implementation can only be community-centered if election officials hear directly from a diversity of community members about your priorities and concerns.
On Monday, November 20, please join us at 9:00am to attend an important public hearing on AVR before the Illinois State Board of Elections.

This meeting will take place in Springfield at 2329 S. MacArthur Blvd. You can also participate in Chicago at the James Thompson Center at 100 W. Randolph in the Blue Room (room 2-025).

We want to fill the room and show the State Board of Elections how much Illinois voters care about strong, timely, and community-centered implementation of AVR.

Will you join us?

I'll be there!
