Connecting Nonprofits & Small Businesses in Black & Brown Communities with Pro Bono Attorneys

Let's Celebrate & Support

- Community leaders who dream of changing their neighborhood for the better by building nonprofits that put volunteers to work in community gardens, soup kitchens, and shelters.
- Entrepreneurs that pour their blood, sweat, and tears into neighborhood hair salons, bakeries, restaurants, and other income-generating businesses where community life can flourish.
- Pro Bono Attorneys who provide access to free legal services to empower these institutions to strengthen the health and wealth of Chicago's communities of color.

That's the Power of Connection!
