

# Compostability Compatibility

## **We CAN compost –**

Fruits, vegetables, grains, pasta, baked goods, beans, coffee grounds, eggs, eggshells, dairy, cooked meat, wood, other plant and animal based material, soiled non-coated paper/fiber products, and WITH WRITTEN APPROVAL “BPI certified compostable” plastic products (i.e. trash can liners/bags, forks, spoons, knives, cups, bowls, plates, straws, and other service ware) are accepted.

**NOTE:** If in doubt, don’t include it without first getting approval.

## **We CAN’T compost –**

The following may be subject to additional fees, and/or may not be received – rocks, stone, glass, all plastics which are not “BPI certified compostable” (i.e. bags, forks, spoons, knives, cups, bowls, plates, straws, and other service ware), metal, steel, tin, aluminum, electronics, Styrofoam, personal health care products, pharmaceuticals, non-compostable packaging, and coated paper/fiber products.

## **We USUALLY compost –**

Raw meat, bones, seafood, and shellfish are accepted on a case by case basis. *GoZERO will be able to accept these items all the time as soon as its community food waste compostery is up and running. Stay tuned for more on this.*

**Thank you for helping us compost your food waste  
by keeping non-compostables out of your carts!**
