### STAYING THE COURSE: THE ROAD TO 10,000 UNITS

SCANPH was proud to be part of the coalition to pass Proposition HHH and promote its goals of tripling annual production of supportive housing and building approximately 10,000 units across the city in 10 years. Clearly, in just a few short years, so much progress has already been made from HHH: the combined supportive housing pipelines is approaching 8,000 units. This 10-year measure is on track for thousands of housing developments to be built by November 2026, so this funding source is delivering housing the unsheltered and rebuilding lives.
