

GDPR Foundation

Course duration – 1 Day

The one-day EU General Data Protection Regulation Foundation is a classroom course that provides a complete introduction to the EU GDPR and an overview of the key implementation and compliance activities required to achieve continuous compliance.

Delivered by a trusted information security compliance manager trained to ISO 27001, this training session is built on the foundations of extensive practical experience gained advising on compliance with data privacy laws and related information security standards such as ISO 27001.

To get certified, delegates must take the EU General Data Protection Regulation Foundation (EU GDPR F) examination at the end of the course – A 60-minute, closed book examination, comprising of 45 multiple-choice questions. Participants must achieve a minimum 65% pass mark to achieve certification.

What will you learn?

1. Introduction to the GDPR
2. Key GDPR terminology
3. An introduction to the GDPR's structure - the legal articles and recitals
4. Main differences between the Data Protection Act and the EU GDPR
5. Principles of the GDPR
6. Key roles and features of the GDPR
7. The rights of Data Subjects
8. Lawful processing of personal data
9. Subject access requests and how to deal with them
10. Complying with the EU GDPR
11. Privacy by design
12. Binding Corporate Rules
13. Data protection impact assessments (DPIA)
14. Breach reporting and responses
15. The role of the DPO
