AXIAD ID CLOUD NOW CERTIFIED COMPLIANT WITH SAFE-BIOPHARMA DIGITAL IDENTITY AND SIGNATURE STANDARDS

Axiad IDS Leads Industry with Frictionless User Experience

Cape Canaveral, FL (August 9, 2018) – SAFE-BioPharma Association, LLC today announced Axiad ID Cloud, a cloud-based trusted identity platform from its newest vendor partner, Axiad IDS, has been certified compliant with the SAFE-BioPharma® global digital identity and signature standards.

Axiad IDS is a leading provider of authentication and trusted identity solutions. The company's Axiad ID Cloud makes it simple for biopharmaceutical and healthcare companies to manage SAFE-BioPharma compliant identity credentials.

Specifically, Axiad ID Cloud provides organizations with a frictionless user experience from the creation and issuance of secure SAFE-BioPharma credentials to the use and full lifecycle management of the credentials.

"We are excited to team with SAFE-BioPharma to make it easier for our customers to acquire and manage compliant identity credentials via Axiad ID Cloud," said Audebert. "Together we are helping biopharmaceutical and healthcare organizations protect patient privacy, improve health transaction security and fortify patient safety."

Axiad IDS' multi-factor authentication and identity management services joined together with the SAFE-BioPharma standard, enable management of access to electronic medical records, clinical portals, and application of digital signatures to electronic documents, including those in the cloud. This can be easily implemented using interoperable cyber-identities issued through the Axiad ID Cloud. With Axiad ID Cloud, organizations can easily issue and manage smart cards and tokens with PKI certificates for authentication, signature, and encryption –- anytime, anywhere.

"Axiad ID Cloud leverages the convenience of the cloud while gaining efficiencies in management of SAFE-BioPharma compliant credentials. We look forward to Axiad IDS'

use of the standard in developing innovative solutions for that improve the user experience and security across the healthcare industry," said Matt King, Director of SAFE-BioPharma Association, LLC.
