

Your club members may want to see these photos of my mx5 converted v8. It is street legal fully complied and registered. it has a fully worked corvette engine with a t56 6 speed gearbox a v8 lsd diff fully worked suspension and brakes tyres etc. the car goes like a dream.

No one can say a mx5 is under powered a joy to drive.

Any one that wants to look at the car it is at my home on the gold coast and a phone call on 07 55304330 will make a time.

The car is only driven as a daily drive and is smooth and easy in traffic.

Regards David Sternberg.
