What you need?
A piece of paper, pen/pencil.

How does it work?
1. Draw around both your hands on a piece of paper and cut them out.
2. Write one of these phrases on each finger of one hand:
   - What if...
   - Where does...
   - Who can...
   - How does...
   - Is there...
3. On each finger of the other hand write a word that is linked to the science theme. Think about what you’re curious to find out about.
4. Bring your hands together and create 2 new questions that you want to ask by linking the words on two fingers!
5. Write your questions in the palm of each hand and share with someone else.
