Great Science Conclusion Creator

Support your pupils in developing conclusions from their scientific enquiries using the Great Science Conclusion Creator and Focus Frames.

**Focus Frames**

**Question Focus Frame**
Place over the scientific questions to encourage children to talk about what they’ve found out.

**Evidence Focus Frame**
Place over the evidence e.g. chart, table etc. to encourage children to talk about how it helps to answer their question.

**Sentence 1**
What is your answer to your scientific question?
- I have found out that...
- I have discovered that...
- I think that...
- The answer to my question is...

**Sentence 2**
Reason
Why does your evidence make you think this?
- I think this because I observed...
- My measurements show this because...
- My Venn diagram shows this because...
- My tally chart shows this because...
- My Carroll diagram shows this because...
- My pictogram shows this because...
- My block diagram shows this because...

**Sentence 3**
Reason
What other reason does your evidence make you think this?
- I think this because I observed...
- My measurements show this because...
- My Venn diagram shows this because...
- My tally chart shows this because...
- My Carroll diagram shows this because...
- My pictogram shows this because...
- My block diagram shows this because...

Encourage children to form their conclusions using the Conclusion Creator.
