THE VENUE

Thank you for your enquiry regarding weddings at Court House Farm and Gardens, which as a delightful medieval and Tudor Hamlet has a romantic atmosphere all of its own. It has existed as a settlement long before doomsday and now nestles in a quiet conservation area of Old Portishead.

When entering the Hamlet of Court House Farm and Gardens it's like going back in time. With neighbouring 12th Century St.Peters church perfectly located next door through an arched door from the garden- it could be an ideal place for a wedding. We have saved the site, with all the buildings being lovingly renovated from dereliction over the last 5 years and restored to their previous natural beauty with a gentle hand, resulting in the original medieval site coming to life once more with an atmosphere steeped in history and hundreds of years of romance.

The grander restored Tudor 'Tower House' with its unique hexagonal folly is available to use for your event along with the other converted outbuildings including the stables, large Cow Shed, Open Barn, and Grand barn (by request) as well as the delightful gardens and courtyards.

Although starting from a bleak farmyard just a few years ago, in the gardens we have created as much privacy and romance as possible, with a special long pergola planted with white flowers to meander through. Plus this year we are launching our very own beautiful flower farm and cutting gardenSo it really is like having your own 'Garden Hamlet' and romantic playground to share with family and friends to create a unique, relaxed and memorable day.

OUR ETHOS

It will embrace you and create the perfect atmosphere to bring all your loved ones together for your dream wedding celebration.
